IN THE SOUP

The Entire Republican Ticket Elected--In a Horn.

Pap Was Vindicated

AND THE BOSS SYSTEM RELEGATED INTO OBLIVION

Pattison Has 5,000 Majority

AND DELAMATER AND QUAY GO UP SALT RIVER

The County Ticket All Elected

BY THE DEMOCRATS SO FAR AS POSSIBLE.

Strohm Elected Commissioner

And Gray Auditor, All the Former By Majorities Ranging from 400 Upwards.

"Pap must be vindicated," so said Dick Quay when the people of Pennsylvania wanted to put in nomination a man wkose election would be assured, and on Tuesday, the voters of the great Commonwealth reiterated Mr. Dick's assertion but emphasized it in a way contrary to the fond hopes of that young son of his father.

This morning hundreds of thousands of voices throughout Pennsylvania are cheering lustily for Pattison and every cheer is a seal of condemnation being put on the one man power, or Boss system, as it prevailed in this state. And every cheer for Pattison carries a pang to the heart of Delamater while the same is but one toll on the funeral bell of S. M. Quay.

Bellefonte and Centre county has great cause for feeling aggrieved. We offered the people a man whose nomination meant election, the people wanted him but Quay would not have him. General D. H. Hastings; Centre county's choice, the people's choice, was defeated by one man, and as one man the people have answered that defeat, not however, because it was General Hastings' desire to have such an answer given, as he worked as hard for the ticket as any man in the State, but simply because he couldn't help it. Centre county, we say, has great reason for feeling aggrieved; for with the down fall of Delamater went hand in hand, the defeat of the entire Republican ticket. Everything has been wiped out save one commissioner and one auditor and those couldn't be defeated, "and the funeral is to-morrow."

At this writing it is impossible to give majorities in any one case but the election of the Democratic ticket is conceeded by majorities ranging from 400 up. Pattison may have 1200 in the county while P. Gray Meek carried the county for Senator by about 1800. Wolfe polled a heavy vote in many parts of the county but, owing to the way he was cut in Bellefonte and a few other places he was knocked out. Harter made a good run but Morrison, by his treacherous trading, slipped in. Strohm ran considerably ahead of Kunes which is a plain expression of the sentiments of Centre county voters.

TOTAL VOTE IN THE COUNTY.

Delamater 3461, Pattison 5229—majority 1779; Watres 3705, Black 4990—1295; Barclays majority, 1609; Oyster 3665 Kribbs 4975—1210, Malone 3326; Meek 5351—2055; Mattern 3761; Fryberger 3776; McCormick 4922—1161, Holt 4884—1123; Wolfe 3959, Isbler 4796—807; Tyson 3860, Gramley 4809—940; Fisher 3706; Rupp 5093—1387; Harter 3733, Morrison 5038—1306; Kunes 3499, Strohm 3748, Goodhaas 4933, Adams 4862. This gives the election of both democratic commissioners and the election of Strohm over Kunes.

THROUGH THE STATE.

PHILADELPHIA, Nov. 5.—At 1.30 this morning Chairman Andrews, of the republican state committee made the following statement:

The Republican State committee believe Delamater has a plurality, but the result is close and it may take the official figures to determine.

Chairman Kerr of the democratic state committe, claims the state by 10,000 majority. He asserted that his advices showed that Pattison will come to Philadelphia with not less than 30,000.

Philadelphia county—twenty-nine of 34 wards show a republican majority of 13,363.

Philadelphia Nov. 4.—twenty-four counties, including Allegheny and not including Philadelphia, give Pattison a net plurality of 7,156. These 24 counties in 1886 gave Beaver, a republican, a plurality of 12,570, showing a net democratic gain of 19,735.

Philadelphia, Nov. 5.—Returns of 65 of 67 counties in the state give Pattison, democrat, 4,792 plurality. The two missing counties are Elk and Warren. In 1886 Elk gave Black, democrat, 682 plurality, and Warren gave Beaver, republican, 1045 plurality.

Philadelphia—Complete returns show a complete majority of 21,276 in this city. Thompson, republican, is elected controller over Dechert by 19,000. In the third congressional district McAleer, the regular democratic nominee, is elected over Vaux by nearly 3,000. The other Philadelphia congressmen are elected.

IN OTHER STATES.

In Connecticut, Illinois, Ohio, New Jersey, Georgia, Massachusetts, Alabama, New Hampshire, South Carolina, Kentucky, Virginia, Michigan, Mississippi and Rhode Island there have been democratic gains. It seems to have been a regular tidal wave for that party and a real Waterloo for the Republicans. Even that valiant statesman, McKinley, was defeated.

Death of H. M. Ingram.

Hoops M., third son of George D. and Eliza Ingram, formerly resident on upper Dick's Run, in Union township, Centre county, Pa., died on the 31st of October, 1890, after about six days illness, caused by internal injury received from carrying shingles on to a building that he was helping to put up in Philipsburg. He became delirious in the beginning of his sufferings and remained so till within a few days of his death. Fully realizing the danger of his situation, he implored Divine aid and forgiveness, accepting Christ as his Savior. He frequently attended church and always was gentlemanly and decorous; was respected by all who knew him as shown in the large concourse of acquaintances who attended his funeral which took place yesterday, Nov. 2d, from the residence of his brother Frank. His remains were buried in Messiah's church graveyard under the direction of Mr Davis, of Julian, the writer officiating. Hoops was aged on the day of his death 39 years, 8 months and 25 days. Our sympathy and condolence are kindly accorded to his brothers and sisters in their sad and sudden bereavement, his parents both being dead for a number of years. J. ZEIGLER.

WASHINGTON LETTER.

(From our regular Correspondent.)

WASHINGTON, Oct., 27, 1890.

Secretary Tracy is as anxious as anybody could possibly be that the United States should have the best armored vessels afloat, but being a careful painstaking official he has not lost his head on account of the recent tests of armor made at Annapolis, as some other people seem to have done, therefore he proposes moving slowly and cautiously about spending the special appropriation of one million of dollars made by Congress for the purchase of nickel. The only specimen of armor that stood the test was the nickel-steel, made by a firm in France, and the Secretary has no idea of making this government dependent upon that firm for its supply of armor plate, so he has decided to have the only two firms in this country that have the plant necessary to undertake the work—The Bethlehem Iron Works of Bethlehem, Pennsylvania and Carnegie, Phipps & Co., of Pittsburg—make several plates similar to those made by the French firm. These plates when completed are to be subjected to the severest tests, and should they prove as good as the French plates the Secretary will at once enter into a contract for the manufacturing of a sufficient quantity of them to armor all of the vessels now being built for the navy.

Mr. Tracy has no fear of any corner in the nickel market, as he has received offers enough of nickel ore from various sections of this country to make it certain that the owners of the Canadian nickel mines cannot dictate the price which the Government shall pay for this metal, and he thinks that the increased demand for nickel in this country and abroad will result in building up a new and great American industry.

Secretary Noble has received another letter from Mayor Grant, also one from Governor Hill asking that the population of New York city be recounted. He has not answered either of them, but it is quite certain that the original decision of the Census Bureau will not be changed. There has no good reason been given for giving Tammany Hall an additional member of the House in the Fifty-third Congress and the State of New York an additional vote in the electoral college that will elect the next President and Vice President, and what is more, none can be given. The census was taken in New York City, in June just as it was every where else and it was just as free of errors as it would be if retaken in November or December.

Everybody is talking about the official bulletin issued by the Census Bureau giving the population of the United States as shown by the recent Census. The total number, exclusive of white persons in Indian Territory and Indians on reservations and in Alaska, is 62,480,540 and the increase over the census of 1880 is 12,324,757. The percentage of increase for the last ten years was 24.57 against a percentage of 30.08 for the ten years between 1870 and 1880. The Census Bureau's bulletin in explanation of the apparent smaller percentage of increase for the last than for the preceding ten years says: "It is well known, the fact having been demonstrated by extensive and thorough investigation, that the census of 1870 was grossly deficient in the Southern States, so much so as not only to give an aggregated rate of increase of the population between 1870 and 1880 in these States, but to affect very materially the rate of increase in the country at large. These omissions were not the fault, nor were they within the control of the Census office."

As in the last census, New York is the most populous state and Pennsylvania the next. Ohio and Illinois have changed places. Texas jumps from 11 to 7, while Kentucky goes down from 8 to 11. Minnesota goes from 26 to 20; Nebraska from 30 to 26; Maryland drops from 23 to 27; Colorado goes up from 35 to 31; Vermont drops from 32 to 36, the new State of Washington strides forward from 42 to 34; Delaware steps backward from 37 to 42; Nevada from 43 to 49 and Arizona from 44 to 48. The figures as a total are somewhat disappointing because the most of us had been figuring on a population of 65,000,000 but still we are one of the big nations of the world.

Another most interesting bulletin has been issued by the Census Bureau showing the production of steel in the United States during the last ten years. During the year ending June 30, 1890 we produced 4,466,926 tons of steel against 1,145,711 tons produced in the year ending May 11, 1880, an increase of 3,421,217 tons or 290 per cent. Pennsylvania still holds her own in steel production, in 1880 she turned out 58 per cent and in 1890 62 per cent of the entire product. Illinois and Ohio are still second and third respectively, just as they were ten years ago.

Things are very quiet in Washington to-day. Everybody, including the President, who has a vote, has gone home to cast it, and those left are hoping for glorious news to-morrow night. The Republican headquarters are deserted to-day, but will be overflowing to-morrow night when the returns begin to come in. Win or lose, it has been a most ably conducted campaign as far as the republican committee is concerned, and if ever the party deserved to win it does now.

Post Office Report for Month of October

Following is the report of the Bellefonte post office matter delivered and collected by the letter carriers for the month of October, 1890.

Registerd letters delivered	61
Postal cards delivered	27173
Letters delivered	5159
2nd, 3rd, & 4th class matter delivered	21578
Local letters collected	1167
Mail letters collected	20718
Local postal cards collected	305
Mail postal cards collected	2386
2nd, 3rd, & 4th class matter collected	2897
Total number of pieces collected	80.644

The above is considerably in excess of the month of September. In fact the office has shown a steady increase right along.

Woodward—Larrimer.

Cards are out for the marriage of Mr. Joseph W. Woodward to Miss Nell Larimer, on Wednesday evening, November 19th, at the residence of Judge A. V. Larrimer, an uncle of the bride, No. 826 South Twenty-ninth street, Omaha. Mr. Woodward is the son of the late Major John V. Woodward, of Williamsport, and his bride is a near relative of Dr. J. F. Larimer and all the parties are well known in this city. Dr. Larrimer now lives and follows his profession in Omaha.

—We acknowledge an invitation to be present at the Seventh Annual Concert and Ball of the P. & E. Fire Brigade of Renovo Shops, which occurs at Renovo on Thanksgiving Eve, Wednesday, November 26th, 1890. The Stoffer & Fisk Orchestra, of Williamsport, will furnish the music.

Concerning Education.

The intelligent citizen is not necessarily more virtuous than his ignorant neighbor, for some of the worst rogues that have cursed the earth have been men of fine education, whilh often one meets citizens of sterling worth who have never learned to read and write. It must be conceded, in view of prison and other statistics, that education of the head alone does not qualify a man for the proper discharge of the duties of citizenship in a free republic. Something more is required—that culture of the heart which teaches one to detest wrong and love virtue, to estimate men nc parties at their proper worth, to so live and think aad act and vote as to promote the best interests we do not merely mean material things, but those higher and nobler principles which distinguish man from the brute.

Yet it remains true, all other things being equal, that he who has at least received a common school education, who can read the national and state constitutions, who is familiar with the history of our country and with the pricinples of the parties which contend for the mastery, is a better citizen than his neighbor who knows nothing of any of these things. For how is it possible for any man to cast an intelligent vote for a caodidate if he is unable to read the history of the country or the current discussions? How can he be a freeman in any sense of the word who must depend upon others for guidance, and who is always liable to be misled by the unprincipled and unscrupulous politicians to whom he goes for advice? And how can one who is ignorant and unsympathetic and sordid be expected to value his vote as a precious thing, to be cast carefully and conscientiously?

Because we are persuaded that the highest type of American citizenship goes hand in hand with knowledge, we advocate the maintenance, the extension and the improvement of the common school system, an institution unique in the history of the world and so distinctly American in its character that no child can remain for any lenth of time under its influence without being put in the way of becoming familiar with our history, our institutions, and the spirit of manly independence and individuality which has made and preserved us a nation. The common schools are far from perfect, a fact which none are more willing to admit than their friedns, but they are not godless, they do not train up criminals, they are the best educational forces the world ever saw, and the good work which they have already done has so firmly entrenched them in the affections of the people that he who seeks to weaken or destroy them will be crushed beneath popular indignation.

There must be an advance along the educational line if the people of this country would preserve the institutions bequeathed them by the fathers and hold in check the professional politicians who utilize, on behalf of their personal interests, the great masses of ignorance yet existing in the large cities and other sections of our country. There should be no attempt to interfere with the freedom of parochial or private schools so long as those at the head of such schools do not strike at the state which protects them. The main thing is that the children be educated. But every state in the union should have a compulsory educational law on its statute books, involving the principal of the much discussed Bennett law of Wisconsin, that is to say, requiring every child of school age in the state to attend, for not less than three months of each year, some school, public, parochial, or private, in which instruction is given in the ordinary branches in the English language. This is the very least that public safety, in face of the enormous foreign immigration, demands.

In addition to the public schools as they now exist, each state should organize a system of industrial education in every city and large town by means of which the boys and girls may be taught to use their hands. We have repeated in these columns so often that it has become monotonous the striking fact that over 80 per cent. of the inmates of American prisons were never taught any trade, but we mean to keep on repeating it so long as we live or until industrial schools shall exist in every considerable community, for we are convinced that whenever the state gives itis children a fair chance to use their hands by way of earning their living the prison population will decrease.

With compulsory industrial education with proper restriction of immigration, with an amendment to the constitution refusing the elective franchise to any one who cannot read or write the English language by the year 1900, with proper co operation upon the part of the church and the home in the work of educating the rising generation in a thorough manner, so that the head, the heart, the eye and the hand will all receive their share of culture, the republic will be put in the path of safety and the coming Americans will preserve those institutions which their fathers created.

GENERAL NOTES.

Ten ordinary eggs will weigh a pound.

There are always 3,500,000 people on the seas of the world.

The sixteenth century may be called the "Golden Age" of tapestry.

Twenty million acres of land of the United States are held by foreigners.

There are 10,852 school districts, 62,372 teachers and 2,800,000 school children in Japan.

A Toronto paper figures out that the drunkards of that city lost $191,582 in wages last year.

"More people kill themselves by eating than by using intoxicants," is the the statement of a celebrated physician.

Five hundred children under 10 years of age were taken into custody last year in London as drunk and incapable.

Thirty six years ago the first settler built his house in Omaha, and the Indians reluctantly fell back a few miles to the west.

The Croton acqueduct is now practically completed and in use. The supply is 318,000,000 gallons of water per day.

The first and only modern windmill to be seen in London is to be seen at work on the top of a warehouse in Citys Road, London.

The law providing for execution by electricity in New York is again before the supreme court of the United States. The question is as in the Kemmler case, heretofore decided, whether the punishment provided is "cruel and unusual" and as such prohibited by the constitution of the United States.

The hop vine is said to be sinistrose because it twines with the motion of the sun, that is, from right to left. Beans, morning glories, and all other species of climbing plants, with the exception of one of the honeysuckles, are dextrose, turning opposite to the apparent motion of the sun, or from left to right.

The probable value of all the diamond in the world, according to a recent estimate, is about $1,000,000,000. The world's diamond trade is carried on by about 7,000 dealers, with a total stock of not far from $350,000,000. The stones are prepared for market by perhaps 4,500 cutters and polishers, principally in Antwerp, Paris and the Jura.

Transfers of Real Estate.

Following is a list of the transfers of real estate made during the past week and entered on record at the Recorder's office, Bellefonte, Pa:

James Wagner's administrators to Roland Leech, lot of ground in Liberty twp.

John Moyer's ex'rs to same, lot of ground in Haines

Emanuel Ettinger, et ux, to same, lot of ground in Haines.

Ended in Smoke.

The grand finale in the late judicial contest took place in Judge Metzger's chamber in the court house yesterday afternoon. It consisted in the destruction of the ballots polled at the election in the fall of 1888, in all the townships, wards and boroughs in the county. The ballots were cremated in the open grate under the eyes of Judges Bucher and Rockafeller, and thus ended the last act in a drama that held the attention for more than a year of every citizen of Lycoming county, and will be pleased to know that the curtain has been rung down—and it is hoped never to rise again—on the most sanguinary contest in the history of Pennsylvania. Peace to their ashes.—*Gazette and Bulletin.*

POSITIVE OF FOUL PLAY.

That Supposed Suicide at Yonkers May Turn Out Murder.

A WEALTHY ENGLISHMAN.

The Body Has Been Identified as That of a Rich Londoner, and the Friend Who Identified It Asserts That the Man Was Murdered.

YONKERS, N. Y., Nov. 1.—It is now a question whether the mysterious stranger who registered at the Getty house, Yonkers, on last Saturday, and died from the effects of morphine on Monday night, committed suicide or met with foul play. Suspicious circumstances have developed in the case. Late last night the body was identified as that of James A. Edgar, a wealthy Englishman, who came to this country a few years ago with $90,000 upon his person.

Where the money has gone to is a question. He was apparently penniless when he came to Yonkers. His friends think that he may have been drugged and killed instead of having taken poison by his own hand. The police are investigating the case.

P. H. Sumner, a broker, identified the body. The letter "George Smith" wrote to the landlord, in which he apologized for his intended suicide, was found by Mr. Sumner not to be in the same handwriting as the name on the registry book. A fine alligator skin valise, said to have been in Edgar's possession, is missing, and it is said also that no bottle in which morphine had been could be found. He has two nephews in New York city, George H. Edgar and Robert Rowe. His family lives in Kensington, London.

A Wealthy Englishman.

Friday Mr. Sumner said to a reporter that the dead man was James A. Edgar, a wealthy druggist of Chiswick, London, England. Mr. Edgar lived with two of his nephews, George H. Edgar and Robert Rowe, in a flat on Ninth avenue, New York. James A. Edgar was worth $90,000. Sumner paid him $5,000, the result of a business transaction two weeks ago. There was still a balance due him of $15,000, which was subject to his order.

Mr. Edgar used to wear a gold Howard watch. He had this on his person when last seen by Sumner. When his dead body was found in the Getty house he had a silver watch and only sixty-seven cents in his pocket. A leather satchel which Mr. Edgar had always been in the habit of taking with him was missing. It had been Mr. Edgar's custom to invariably take this satchel with wherever he went.

Mr. Sumner says that the letter which the suicide left with the proprietor of the Getty house is not Mr. Edgar's handwriting. Mr. Sumner unhesitatingly pronounced the letter a forgery. He declares it was written by some one else, and not by Mr. Edgar. The letter reads as follows:

To the Proprietor of the Getty House:

I ask pardon for causing you or your guests any trouble. The inhumanity of a few persons has driven me to despair and death.

GEORGE SMITH.

Positive of Foul Play.

The entry on the hotel register, "George Smith," which was written by Mr. Edgar when he took the room at the hotel, is his handwriting. Clerk Hall also saw him sign it. The handwriting in the letter differs in some points from that on the register. Mr. Sumner is positive there has been foul play.

When Mr. Edgar was found in his room a revolver of large caliber lay upon the bureau. It was then supposed that the man had intended to shoot himself in case the poison he had taken did not kill him.

All this looks to Mr. Sumner as if it was a carefully prearranged plan. No one recollects having seen any one in Mr. Edgar's room. Mr. Sumner has no theory or suggestion to offer, but persists in his assertion that Mr. Edgar is the victim of foul play. Mr. Edgar was 60 years old.

Mr. Sumner furthermore says that the dead man and his nephews had some difficulty in England. Mr. Sumner did not state what the precise nature of the quarrel was, but said that it was of a serious nature.

Mr. Edgar, the dead man, took the name of Smith in New York a few months ago. He wanted Sumner to go to London and settle some troubles there. He offered to pay Sumner $5,000 for his services. Sumner refused to go.

The authorities now have possession of the letter supposed to have been written by the suicide to the proprietor of the Getty house. They have also taken charge of the other effects, and will make a careful examination of the whole mysterious affair.

Archbishop Ireland Called to Rome.

MILWAUKEE, Wis., Nov. 1.—The Catholic News, a church publication of this city, announces that news has been received from the east that Bishop Ireland, of St. Paul, Minn., has been summoned to Rome for an unknown purpose. The Citizen says the fact has aroused great interest in Catholic circles. The impression prevails here that Archbishop Ireland has been summoned to the Vatican for discipline on account of his utterances in favor of the public schools and compulsory education before the National Teachers' association at St. Paul last summer. When seen by a reporter Archbishop Ireland denied the statement, and added: "The fact that it comes from Milwaukee is sufficient to brand it as false. It is made for political purposes only."

Missouri Wheat Doomed.

KANSAS CITY, Mo., Nov. 1.—Farmers and grain growers report that the Hessian fly has made an attack on early sown wheat, and the indications are that September wheat is doomed. Reports of most damage come from Ottawa county, Kan., Fayette, Cass and Jackson counties, Mo. It is believed, though, that the damage is general and that all the fall wheat will be destroyed by the enemy.

A Big House Goes Under.

CHICAGO, Nov. 1.—Leopold Bros. & Co., wholesale dealers in and manufacturers of clothing, failed Friday. Their liabilities will aggregate $300,000. The firm did a business of a million a year. The reason for the failure is believed to be the reduction of their capital, caused by the death of two of the partners and the withdrawal of their money interest by their widows.

A Paper Sued for Libel.

PLYMOUTH, Ind., Nov. 1.—Suit was instituted for $10,000 libel by O. F. Miller, of Bremen, Ind., against The Plymouth Democrat. The plaintiff is the Republican candidate for county auditor.

DISGUSTED ALL AROUND.

The Iron and Steel Men and Toronto Exchange Scant Courtesies.

TORONTO, Nov. 1.—The 150 members of the Iron and Steel Institute who arrived in this city Wednesday evening are a body of very disgusted men. They believe that the Toronto city council and board of trade have deliberately tried to hurt their feelings, while the citizens think the grievance is entirely theirs.

When the iron and steel men arrived in the United States the board of trade and the city council invited them to visit the city, but the invitations were not answered till Wednesday morning, when it was learned that the visitors would spend only five hours in Toronto. The board of trade had laid aside $1,800 to spend on a reception. They decided not to spend a cent. The city council refused to go to the expense of hack hire to the station.

When the delegation got here there were only two men waiting to meet them at the station. The visitors declined all civil attention and said they had been grossly insulted. Col. Holland, a member of the institute, said they had been treated magnificently in Chicago, New York, Pittsburg and other cities, and they could not think of marring the success of these affairs by accepting any sort of hospitality in Canada.

THEY LAUGHED AT THE IDEA.

But When Their Turn Came They Found It Wasn't a Bit Funny.

TEXARKANA, Tex., Nov. 1.—Two young farmers named Markham, while returning from New Boston, were held up by a lone highwayman who, with a self cocking revolver in each hand, compelled them to take off their clothes, turn all their pockets inside out, and put all their money—a goodly sum—and valuables into a heap. Then they were ordered to dress themselves and "git," which they did in short order.

In a few minutes W. Thudgins, a prominent attorney, and Rollin, another attorney, happened along, and to them the Markhams told their tale. The lawyers laughed at the farmers for allowing one man to rob both of them, and said they would like to see one man rob them.

They rode off laughing at the farmers, but had not gone far when they were suddenly confronted by the robber and his pistol. He put them through the same performance as he did the Markham brothers, and robbed them of their gold watches and all their money.

The Nicaragua Canal.

ST. LOUIS, Nov. 1.—Mr. Max Reber, a St. Louisian, and a member of the engineering staff of the Nicaragua Canal Construction company, is in the city on a two weeks' leave of absence. He stated that the work upon the canal had been in progress for eighteen months, and from the entrance at Greytown had progressed into the interior about thirteen and a half miles to what is known as the divide cut. A railroad running ten miles into the country has been built by the company from Greytown through the swamps to the divide cut for transporting its men and material. It is built entirely upon the corduroy pontoons of felled tree logs. The work at the rock divide cut is the most difficult of all, as it is through the solid rock. The balance of the construction will be comparatively easy to the Pacific coast, and will be pushed forward as rapidly as possible. The canal will be completed and open for traffic within the next four years.

Alaska Kicks for Representation.

SAN FRANCISCO, Nov. 1.—Advices from Alaska say that the election for delegate in the United States congress from Alaska has resulted in favor of Capt. James Carroll, of the steamship Queen. Such a seat does not as yet exist, but the convention recently held passed resolutions asking congress to accord Alaska a seat in that body. It also adopted a lengthy memorial setting forth the injustice of congress in so long denying Alaska a representative in congress; also "that there are no means of obtaining titles to the land upon which we have built our homes, and that the prohibitory liquor law is obnoxious to the people."

A New Railroad Incorporated.

ALBANY, N. Y., Nov. 1.—The Mohawk Valley and Northern Railroad company has been incorporated to run from Poland, Herkimer county, through Trenton and Gang Mills to Noblesborough, Herkimer county. Length twenty-five miles and capital $350,000. The directors are Robert O. Alexander, David L. St. John, C. G. Mills, Warden Higley, of New York; Alexander R. Harper, of Philadelphia; A. B. Steele, Albert Wilber and Warner Miller, of Herkimer; C. F. Phillips, of Brooklyn; Thomas E. Merritt, of Middleville; W. N. Roberts, of Catskill; Dewitt C. Lefever, of Buffalo, and Henry Patton, of Albany.

His Foolhardiness Ended in Death.

PITTSBURG, Nov. 1.—Robert Washington, a colored man of Braddock, aged 23, was instantly killed from the effect of an electric shock received by catching hold of a lamp in order to show bravado to his fellow workmen. While standing in the Carnegie blast furnaces young Washington laughingly said he was not afraid of electrocution, and reaching high over his head he grasped an electric lamp. Instantly he fell to the floor dead.

Let the Pugilists Go.

NEW YORK, Nov. 1.—"Spider" Kelly, "Benny" Murphy, Dominick McCaffrey, "Jack" McAuliffe, "Billy" Oliver and Mrs. Drester, who were parties to a prize fight which was alleged to have taken place in a hall on St. Mark's place recently, were in the court of special sessions Friday for trial. On hearing the evidence the court decided it insufficient, and discharged the entire party from custody.

A Man's Frightful Death.

CHICAGO, Nov. 1.—Noah J. Swenson was literally ground to pieces under the flying crank of the big engine in the plant of the Western Paving Supply company at 34 West Chicago avenue. His skull was crushed, his limbs were twisted and broken and his body was shattered and torn. He was accidentally thrown under the deadly crank by a fellow employe named Henry Lundstadt, with whom he was scuffling over the greasy and slippery floor of the engine room.

Got Out Just in Time.

TROY, N. Y., Nov. 1.—At 1:50 o'clock Friday morning fire was discovered burning fiercely in the large frame building No. 1417 Third avenue, West Troy. There were four families who occupied the building sleeping within, and they were only awakened in time to escape death in the flames. The building was left in complete ruin before the fire could be checked, although the alarm was sounded promptly and the fire department responded quickly.

HOLLAND'S CRAZY KING.

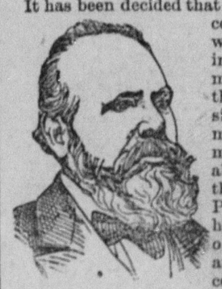
The Deposed Monarch's Malady Is Entirely of a Mental Nature.

HE HAS ONE MONTH'S GRACE

The Council of State Will Rule in the Meantime, and if He's Not Better Then Queen Emma Will Be Invested with the Regency.

THE HAGUE, Nov. 1.—It has become known that the malady from which the king of Holland suffers is entirely of a mental nature. In fact his majesty is insane. Physically his health is perfectly sound. The story of his protracted bodily illness was devised and maintained in order to prepare the way and prove the necessity for the establishment of a regency.

It has been decided that the Netherlands council of state will exercise ruling powers for a month, and if there is then no sign of improvement Queen Emma will be formally invested with the regency. The Prince of Nassau, heir to the throne of Luxemburg, and next to Princess Wilhelmina in line to the crown of Holland, has expressed himself as reluctant to again take the regency of Luxemburg, but will probably do so should the king of Holland, who is also sovereign of Luxemburg, remain incapacitated.



KING WILLIAM III.

A Fortune Lost to the Pope.

LONDON, Nov. 1.—A short time ago Signora Aldimira Meis, a very wealthy Italian, died, leaving, according to her promises and the testimony of persons who witnessed her will, the sum of 5,000,000 lire to the pope. Her relatives and other presumable legatees were prepared to hear the will read bequeathing this large sum to the pontiff, knowing the wishes of the deceased; but no will was forthcoming, and diligent search for it since has been fruitless. In the absence of the will the entire estate reverts to the state, and it is freely charged that the document has been stolen by persons acting for the crown, in order to deprive the pope of his legacy. The affair has created a great deal of excitement, and will probably be heard of in the courts. The persons who witnessed the will are ready to testify that they were made aware of the contents of the document before signing it.

That London Butchery.

LONDON, Nov. 1.—Mrs. Crichton, alias Piercey, now under arrest, charged with having murdered Mrs. Hobbs and her young child, and whom the husband of the murdered woman acknowledged to be his mistress, Friday admitted that she had invited Mrs. Hobbs to visit her. This the latter did on Friday last in the afternoon. During a conversation between the two women Mrs. Crichton took offense at a remark made by her visitor and resented it. A few words then ensued between them. Here the prisoner abruptly concluded her confession with the explanation that she had better say nothing more.

A New Cabinet for Greece.

ATHENS, Nov. 1.—M. de Dyannis, who was called upon to form a cabinet to succeed the Tricoupis ministry, has accomplished the task. The new premier said that he hoped that nothing but what was pacific would transpire in the foreign relations of the country during the existence of the new ministry. He said the cabinet would guard the dignity and honor of Greece while avoiding the adoption of an aggressive policy.

Enforcing the Anti-Jewish Law.

ST. PETERSBURG, Nov. 1.—The director general of police, Gen. Groesser, has instructed the police to rigidly adhere to the letter of the anti-Jewish law. The police are also directed to compel the families of Jews expelled from the country, or transferred from one portion of it to another, to depart with them.

A Novel Way to Prevent Emigration.

BERLIN, Nov. 1.—The Vossische Zeitung states that while a number of persons were attempting to leave Russia for the purpose of emigrating to Brazil they were fired into by the Russian frontier guard and four of the party killed.

Actor Webster Found Guilty.

NEW YORK, Nov. 1.—After twenty hours' deliberation the jury in the trial of Actor Charles Crumley Webster came into court with a verdict of guilty of manslaughter in the first degree. McNeill, the murdered man, was a young engineer, and had been unduly intimate with Mrs. Webster. When her husband was apprised of the fact by certain of his wife's relatives he became enraged. McNeill heard of his anger on Aug. 19, and sought out Webster to "settle the matter." When Webster saw McNeill in front of his residence he shot at him twice, and he died almost instantly. Webster's defense was insanity at the moment he fired the fatal bullet. This plea was sustained by the fact that his father was insane and died in the Flatbush Insane asylum.

Blown Fifty Feet Into the Air.

KANSAS CITY, Mo., Nov. 1.—Accumulated sewer gases confined in the sewer pipe under Kansas avenue, near Brent street, in Kansas City, Kan., exploded yesterday with terrific force. The iron caps of the manholes in that vicinity were blown fifty feet into the air, and created consternation among the pedestrians and the horses on the street. The huge missiles fortunately descended to the ground without injuring any one. The cause of the explosion is not known.

FINANCIAL AND COMMERCIAL.

Closing Quotations of the New York Stock Exchange.

NEW YORK, Oct. 31.—Money loaned at easy rates today, viz., 5@6 per cent. Exchange steady posted rates, $4.81@4.83½; actual rates, $4.80¾@4.80¾ for sixty days, and $4.84½@4.84¾ for demand. Governments steady; currency 6s, 111 bid; 4s, coupon, 124 bid; 4½s, do., 104 bid.

There was a decided falling off in the trading on the Stock Exchange this morning as compared with that of yesterday during the same hours. Up to noon today only 161,000 shares had changed hands. The principal trading was in the trusts and about four stocks in the railroad list, namely, St. Paul, Union Pacific, Atchison and Burlington. Sugar Trust opened 2 per cent. higher at 68¼, but in the first fifteen minutes receded to 66. By 11 o'clock its price recovered to 67. Chicago Gas was especially strong, and advanced to 41¼ from 39⅞. The general list changed but slightly. In the hour to noon there was hardly any business, and prices at midday were but little changed from those current at 11 o'clock. The market continued dull at the close.

THE RICHEST IN THE WORLD.

Canadians Want American Capital to Develop Their Great Nickel Mines.

OTTAWA, Nov. 1.—Professor Bell, of the Dominion government geological survey, has just returned from an inspection of the great nickel deposits at Sudbury. Speaking of the proposal to impose an export duty on Canadian nickel Dr. Bell said: "Whoever made this suggestion is simply an idiot. We want American capital to help us in developing our nickel mines."

Thomas A. Edison, the wizard of Menlo park, is the latest American who has turned his attention to the Sudbury nickel district. The inventor has bought thousands of acres near Sudbury, in various sections of which the outcropping of nickel is very promising. Mr. Burns, Edison's expert, confirmed the opinion of the geological survey—that the Canadian nickel region is the richest mining district in the world.

The Edison people claim to have discovered a process by which the nickel ore can be treated very inexpensively, leaving a large margin of profit. Mr. Burns has also examined various mica mines, the product of which will be utilized for electrical purposes.

THEY'RE DANGLING IN THE AIR.

Swift Vengeance Meted Out to Two Negroes Charged with Murder.

ATLANTA, Ga., Nov. 1.—The mutilated body of Miss Banter was found in a brush pile near Stilesboro. Two negroes suspected of causing her death were arrested.

The two negroes, who had been followed fifty miles and caught, were taken from the officers by a mob and carried into the country. There is no doubt but their dead bodies will be found hanging from a tree limb.

The finding of the dead body of the girl by her father was agonizing. Some distance from the house is a stretch of woodland, and in the road leading to it the father discovered pools of blood and evidence of a fearful struggle. A bloody track was made in the road where the girl had been dragged. Farther on was a pile of brush, where a tree had been cut down. Lying under the brush, her face downward, bathed in her own blood, was the mutilated body of the girl, her throat cut from ear to ear.

Black and Blue from Head to Foot.

MUNCIE, Ind., Nov. 1.—Lottie Johnson, a young woman about 25 years of age, who has no home, was admitted to the Delaware county infirmary about four years ago. The girl was healthy in every way except that she was subject to epileptic fits. On the 25th of August last she was taken to the Richmond asylum. She had been there but a short time when she was discharged as cured. When she returned to the infirmary she complained of being sore, and upon investigation the fact was revealed that she had been whipped, her body from head to foot being black and blue, and in places the bruises were running sores. She relates many cases of outrageous treatment while there.

A Wreck and No One Injured.

BOSTON, Nov. 1.—On the Boston and Maine railroad at Lynn the heavy engine No. 216, attached to the west bound Portland freight train, collided with the shifting engine Laconia, which with twelve freight cars was backing on to a spur track. The Laconia was lifted up, and its tender truck came forward under the cab wheel. Its front was torn away and one of its cars wrecked. No. 216 lost its entire front, its pilot and its smoke arch. No person was injured. The obstruction to travel was not serious.

Man and Wife Asphyxiated.

CHICAGO, Nov. 1.—William Mottling and wife, who on Wednesday took up their abode in the boarding house of Ralph Gates, at No. 4,457 Ellis avenue, were found dead in bed yesterday morning. They had been asphyxiated by gas. It is believed that the death of Mr. and Mrs. Mottling was due to their ignorance of the nature of the fuel gas being supplied to consumers. The gas was turned down so low that the magnesia filaments became cold and the flames soon went out, leaving the deadly gas escaping.

Some One Had Been There Before.

EAU CLAIRE, Wis., Nov. 1.—The notice that the government would sell the swamp and railroad indemnity lands in this section on Nov. 10 next has led to the discovery that all the indemnity lands have been stripped of their timber and are valueless. The government will investigate charges that the Chicago, St. Paul, Minneapolis and Omaha railroad sold these lands to lumbermen, who cut $1,000,000 worth of timber therefrom. It is claimed that the railroad had no title to the lands.

Another Illustrated Agricultural Album to Be Issued.

THE FUTURE OF THE SOUTH.

The English Iron and Steel Magnates Impressed with Its Marvelous Industrial Resources—Reports from Our Consuls Abroad.

WASHINGTON, Nov. 1.—The department of agriculture is preparing to issue a limited edition of another statistical album, illustrating by colored charts the distribution of corn, wheat, oats and cattle in the several states, and also of their agricultural population. The crop statistics will be given by areas, and those of cattle by values, the latter being averaged on the returns of the last ten years.

The circulation of these albums will be confined, on account of the expense of producing them, to the libraries of agricultural colleges and schools, farmers' institutes and the like, and such institutions should file their applications with the secretary of the department of agriculture as early as possible.

The South's Industrial Future.

WASHINGTON, Nov. 1.—From all accounts, what had most impressed the English iron and steel magnates, who gathered here a few days ago after their extensive travels, was the marvelous industrial future of the south and the comparatively trifling preparations made as yet to meet it. The idea of having iron, coal and lime all lying together right at the furnace doors, as they had seen them in certain places, roused their wonder.

"What does a country want with a protective tariff when she has such facilities as that?" exclaimed one of them. "It costs us in England about as much to bring our materials together as it does to mine them. Against such conditions as yours no foreign competition can long prevail."

Our Trade with the Bahamas.

WASHINGTON, Nov. 1.—United States Consul McLain, at Nassau, has sent a report to the department of state on the trade and commerce of the Bahamas. A statement is given showing that there has been a slow but steady decrease in the volume of trade. There has been a small increase in exports, the value in 1889 being about $44,000 more than in 1888, while the value of the imports was $75,000 less.

The report shows that out of the total trade of the Bahamas with foreign countries, amounting to $1,489,285, the United States in 1889 secured $1,134,357, or nearly 75 per cent.

Imports of Hemp.

WASHINGTON, Nov. 1.—The total shipment of hemp to the United States from Manila for the quarter ended March, 1890, according to a report of Alexander R. Webb, United States consul at Manila, Philippine Islands, was 27,450 bales, against 20,387 bales for the corresponding quarter of last year. The prices obtained—from $9.75 to $11.50—were considered low, and better prices are expected to prevail if the supply in the United States should become exhausted.

Output of Coal.

WASHINGTON, Nov. 1.—Consul Turner, at St. Thomas, has made a report to the state department in regard to the American coal trade. The report says that during the past year twenty-three steamers arrived at St. Thomas, with 25,577 tons of coal from the United States. During the previous year twenty-two sailing vessels arrived at St. Thomas with coal, fifteen from Great Britain and seven from the United States.

BRIEF MENTION.

A boiler exploded in the Portage Iron works, Duncansville, Pa., seven miles from Altoona, and four men were fatally and a number of others seriously injured.

The Philadelphia Natural Gas company increased the price of gas to domestic consumers in Pittsburg 50 per cent. and ordered the supply cut off from all mills.

A vessel containing 19,000 pounds of molten metal broke from its fastenings at South Bethlehem, Pa. Several men were burned, one seriously.

Hugh McDonald, of Mt. Carmel, Pa., well known as a local political leader, was struck by a train on the Reading railroad and fatally injured.

Henry M. Stanley told a reporter at Queenstown that he had nothing to add to the statements made in his book regarding Maj. Barttelot.

The sugar trust proposes to reorganize under the laws of New Jersey as the American Sugar Refining company. Its net assets are $11,743,654.

Rev. Dr. Cleland Kinloch Nelson, dean of the convocation of Washington, of the Protestant Episcopal diocese of Maryland, died.

The czar has been advised by a member of the holy synod to banish foreign missionaries from Russia.

John Anderson, a Swedish tailor, who is said to be afflicted with a light type of leprosy, has become the subject of much official and private concern on the part of the city of Chester, Pa., and he will be isolated, temporarily, at the county almshouse.

A coal train on the Pennsylvania road ran on a switch at Huntingdon, Pa., and crashed through the Hotel Brunswick, creating a panic among the guests, and landed in the yard of the Girard house.

Mr. Van Abel, of Allegheny, Pa., the confidential clerk of a Pittsburg wholesale drug firm, is missing, and there are rumors that his accounts are short for an amount exceeding $10,000.

They Will Play with Pistols.

NEW YORK, Nov. 1.—John A. V. Anido, a 13-year-old lad, shot his 8-year-old brother William in the forehead with an old revolver while the two were engaged in a struggle for the possession of some candy at their home, No. 594 Park avenue. The wounded boy was able to walk to the hospital with his brother, but there he lost consciousness, and will probably die. John asserts that the pistol went off accidentally.

The Detective's Body Found.

COLUMBUS, O., Nov. 1.—A telegram from Ogden City, Utah, announces that the body of Detective James Murphy, of this city, who so mysteriously disappeared from there a month ago, has been found near that place. No particulars yet.

What is Protection?

[Symposium for a New York Paper.]

Protection, which is but another word for self-preservation, is a principle implanted by God upon all animated matter. The beasts that roam over the plains are protected by hair, the birds of the air by feathers, the fish by scales, and the tortoise by a shell. Man, possessed with understanding, protects himself from the cold with garments and from the storms with a house. The bird that builds a nest, and the Beaver that builds a dam, do so but in obedience to that great and universal law which God has established. Man protects himself as best he can in his daily walks and in all his business pursuits. The house he builds protects himself and family, and the walls and fences he sets up protect his lands. The government men establish is but to protect the persons or property of those who live under it. With regard to the pursuits of policy of governments in business matters, as a rule they enact such laws, and pursue such policy, as each one believes in its collective capacity will afford the best protection, and tend to make its people the most prosperous and happy.

And this is right. Selfishness in this particular with a nation is a virtue and not a vice. The mistake that most political economist makes is in attempting to lay down one general rule or system as applicable to all nations. God has not made two human beings alike, in fact, not two things alike so far as we know in all the universe; yet with this fact before them political economists lay down a system and pretend that it will apply equally to all the nations of the earth, without regard to their different conditions and circumstances as to location, climate, production or population. It would be about as proper and consistent to prescribe the same food and the same clothing for the Icelander as you would for the man living in the tropics. It is best for the people composing a nation that its policy should be such as to afford its own people the largest quantity of the world's products at the cheapest price at which it can be done consisent with the cost of production. It is best for all mankind that this should be done by every nation. This can only be accomplished by giving employent to the people and developing the resources of the country. The more general the one and the more extensive the other the nearer you come to accomplishing this end. The more you develop the more there will be to distribute; and the more general the employment the more wages there will be paid to the people who work. Wages paid is but another name for distribution of products among the people.

It should be the chief object of a nation to pass such laws as will accomplish this result. The protection of labor and the developement of the resources of the country should be paramount objects with all governments. The nearer you come to this the nearer you attain the end for which all governments should be established, to wit, the protection and prosperity of the people: I claim that the American system of Protection has accomplished this, and that our people are better educated, better housed, better clothed, better fed, own more of the houses in which they live, not only have more of the necessaries but more of the luxuries and comforts of life than the people of any other country on the globe, and this applies more particularly to our work people as compared with the work people of other countries; so that to-day we are the most wealthy, prosperous, powerful, and civilized nation in the world.

RUMOR OF A BAD DISASTER.

Seventy Persons Reported Drowned by a Collision Off the Jersey Coast.

NEW YORK, Nov. 1.—A rumor was current in shipping circles Friday afternoon to the effect that a serious disaster had taken place.

The rumor had it that a steamer which sailed from this port Thursday was in collision with another vessel off the New Jersey coast and that a large number of the passengers on the steamer were lost. It is said that both vessels sank.

The report was that some sixty or seventy persons were drowned.

The steamer Humboldt arrived here Friday from Brazil. She reports that she picked up some of the crew of the Spanish steamer Viszcaya, which left New York Thursday, and which was sunk off Barnegat by an unknown vessel with which she was in collision. The Humboldt reports that the schooner was also sunk, but nothing is known of her captain and crew.

The Humboldt rescued three officers and eight of the crew of the steamer, and it is supposed that the rest of the crew and the passengers, some sixty or seventy persons all told, were lost.

A Former Clergyman's Disgrace.

NEW YORK, Nov. 1.—Bernard St. John Gisby, formerly a Unitarian clergyman, was Friday sentenced by Judge Martine, in the court of sessions, to two years in state prison, having been convicted a few days ago of grand larceny in the second degree, in having picked a lady's pocket in a book store on Twenty-third street some weeks ago. Gisby is an Englishman, and came to this country some seven years ago. He held a charge in Wilton, N. H., in 1885, but lost it through his dissolute habits.

The World's Fair.

CHICAGO, Nov. 1.—The executive committee of the World's Fair directory received a number of bids for the piling and filling of the lake front. The directors will consider them at their next meeting. "It only remains," said one of the directors, "to carry out the order of the directory and award the contract not later than Saturday, Nov. 1, and this order will be carried out to the letter and work on enlarging the lake front begun doubtless the same day."

Both in the Same Box.

WASHINGTON, Nov. 1.—The Post says that Messrs. Roosevelt and Thompson, of the civil service commission, have subscribed $50 each to the campaign fund—Mr. Roosevelt to the Republican and Mr. Thompson to the Democratic fund. It adds that Mr. Roosevelt sent an apology along with his contribution to the effect that it was to be used for legitimate campaign expenses in any congressional district where needed.

Visited by Ex-President Hayes.

BALTIMORE, Nov. 1.—Ex-President R. B. Hayes arrived in town and paid a visit to the Johns Hopkins university and hospital. He said that his visit was to consult with Dr. Gilman, president of the Johns Hopkins university, in regard to matters connected with the Slater fund for the education of colored children in the south. At night he left for Cleveland, O.

Some Noted Purchasers.

NATURAL BRIDGE, Va., Nov. 1.—At the sale of lots yesterday over $50,000 worth of sites for summer cottages were disposed of. Among the purchasers were Senator Jones, of Nevada; Charles H. Caster, of Drexel, Morgan & Co.; Miss Emma Thursby, Francis W. Breed, of Lynn; F. C. Squier, of Buffalo, and many others.

Shot Himself While Despondent.

CHICAGO, Nov. 1.—William H. Calvert, a member of the firm of Vane, Calvert & Co., manufacturers of paints, at 201 Randolph street, shot himself through the head during a fit of despondency and three hours later died. Mr. Calvert was the representative of the firm in St. Louis, was 56 years old and quite wealthy.

The Weather.

Fair weather, except some cloudiness and flurries of snow on the lake shore; continued cold westerly winds.

A Good Starter.

WATERTOWN, N. Y., Nov. 1.—Snow fell here to a depth of four and a half inches.

Tried to Suicide on the Street.

BALTIMORE, Nov. 1.—John Nelson, a watchmaker, of 55 Hamilton avenue, Brooklyn, N. Y., made an attempt to commit suicide on a street corner Friday afternoon by carving himself with a jackknife. The hospital physicians say he may recover.

Smoked a Cigarette and Died.

PHILADELPHIA, Nov. 1.—Frank Sherer, aged 6 years and 9 months, who was accompanying his mother from Bavaria to this city on the steamship Westernland, died at sea on Tuesday from sickness caused by smoking a cigarette that had been given him by one of the passengers. The ship's physician gave a certificate of death from nicotine poisoning, and the coroner will hold an inquest.

Cincinnati's Wrangle.

COLUMBUS, O., Nov. 1.—The supreme court Friday decided against the members of the board of public improvements. In the judgment of the court the petition does not make a case for an injunction, and the application was therefore denied. The court will hand down an opinion later.

The Count Sightseeing.

NEW YORK, Nov. 1.—The Count of Paris and suite spent the day in sightseeing about the city.

The Lee Monument.

RICHMOND, Va., Oct. 31.—Upon receipt of information that Mercie could not furnish the horse and rider for the Lee monument until the latter part of January the Lee monument board postponed the unveiling until May, 1890.

The Dance Broke Up in a Row.

CARTHAGE, Ills., Nov. 1.—During a country dance near here a bloody row was caused by a young man named Moses Printy, who had been ordered out of the house. Fifty couples engaged in the affray. Knives, brickbats, sticks and chairs were the weapons. Joseph Munson was probably fatally stabbed, and Moses Printy was also seriously cut. There were no arrests.

Stale Oysters Killed Him.

CHICAGO, Nov. 1.—Dr. William N. Hibbard, a young physician of Hyde Park, died from a most peculiar case of poisoning. A week ago Dr. Hibbard partook of some oysters at a restaurant. The oysters had been kept so long that they developed a poison known as ptomain, from the effects of which the doctor died.

Restored His Wife's Health.

My wife suffered for years from debility and a general breaking down of health, the results of disease peculiar to women. A few bottle's of Swift's Specific (S. S. S.) restored her to perfect health. It built her up, increased her appetite and weight, until she is now the picture of health. The speedy recovery of my wife from her long illness caused all my family, and several of my neighbors, to take S. S. S. As a tonic we are all delighted with it.

The Buccaneers of old.

Flaunted the skull and cross bones, their ensign, defiantly at the masthead. Your modern pirate, not on the high seas, but upon the high reputation of standard remedies skulks under various disguises. His hole and corner traffic has never to any degree affected Hostetter's Stomach Bitters although that standard invigorant and corrective has long been the shining mark at weich his shafts have been directed. Cheap local bitters, composed of fiery unrectified stimulanss, with an infusion or extract possibly, of some tonic bark, are still sometimes recommeubed as identical which, or simular to, or posses ing virtues kindred to those of America's chosen family medicine. These perish speedily, while the great subduer and preventive of disease pursue its successful career, overcoming malaria, dyspecsia, nervousness, kidney troubles consipipation and rheumatic ailments not only on this, but many continents,

Consumption Surely Cured.

TO THE EDITOR:—Please inform your readers that I have a positive remedy for the above-named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl St., N. Y.

That Little Tickling

In your throat, which makes you cough once in a while and keeps you constantly clearing your throat, arises from catarrh, and catarrh is a constitutional disease the ordinary cough medicines all fail to hit the spot. What you need is a constitutional remedy like Hood's Sarsaparilla. Many people who have taken this medicine for scrofula, dyspepsia loss of appetite, and other troubles, have been surprised that it should cure this troublesome cough. But to tknow the actual cause of the cough is o solve the mystery. Many cases of consumption can be traced back to the neglect of some such slignt affection as this. Consumption can be controlled in its early stages, and the effect of Hoods Sarsaprilla in purifying the blood· building up the general health, and expelling the scrofulous taint which is the cause of catarrh and consumption, has restored to perfect health many persons on whom this dreaded disease seemed to have a firm hold.

—On Saturday afternoon a habeas corpus hearing was held in the case of Luther Kline charged with assaulting Bertha Grenoble, a 13-year-old girl. The evidence against the accused was so conclusive that he was held in three thousand dollars bail for his appearance at Court.

Everybody knows scrofula to be a disease of the blood and Hood's Sarsaprilla is the best remedy for all blood diseases.

—Col. W. H. Wilkinson and family are now cosily settled in their new home on Allegheny street. Now when Colonel J. L. Spangler gets his new house completed and moves in it, that side of the street from Lamb to Howard should be called Military Row.

Deafness Can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars free,

Some Persons Do.

Some are always prying into the affairs of others, but it is a mean thing to do.

Some persons are ready to bet on everything that is transpiring, but it isn't advisable.

Some ladies have a habit of picking each other to pieces," but they gain no credit by it.

Some think it their duty to feed the lazy, vicious tramp, but it is not to be recommended.

Some think it smart to ridicule sacred things, but only show that they are weak in the upper story.

Some folks think fine clothes make ladies and gentleman out of them, but they are sadly mistaken.

Some young men think it immense to break a girl.s heart, but are only making themselves contemptible.

An infallible sign of decay is sleeplessness: if this is dangerous in an adult, it is deadly in early childhood. Dr Bull's Baby Syrup will always assist in comforting the baby. It has proved undoubted usefulness, we refer to old Saul's Catarrh Cure. Price 25 cents.

Before the introduction of Salvation Oil, rheumatism was considered incurable, Price 25c.

Lost time is forever lost. Absence from school is often caused by a cough, cold or hoarseness, and can easily be prevented by giving Dr. Bull's Cough Syrup to the children. Price 25c.

It is dangerous to neglect catarrh, for it leads to bronchitis and consumption. Hood's Sarsaprilla cures catarrh in al forms.

AN UNFORTUNATE BLOW.

Denny Kelleher Seriously Injured in His Fight with the Black Pearl.

MINNEAPOLIS, Minn., Nov. 5.—The fight between Harris Martin, the Black Pearl, of this city, and Denny Kelleher, of Boston, for a purse of $1,000, occurred at the Twin City Athletic club rooms and was awarded to the Pearl in the twentieth round. There was very little fighting done. In the first seven rounds not a blow was struck.

In the eighteenth there was a rush made by the Pearl and in the break away Kelleher claimed he had been fouled and seriously injured in a sensitive part of the body. While bending over he was hit in the stomach. Both fouls were disallowed.

In the twentieth round the Pearl chased Kelleher around the ring, and hitting him a light blow Kelleher went down. He was carried to his room and physicians called who certified to the truth of his statement. He was very seriously injured.

An Unusual Proceeding.

HALIFAX, Nov. 5.—An action for "life salvage" against the owners of a vessel is a most unusual proceeding, but such a suit will be tried in the vice admiralty court of this province, where a writ has just been issued for $3,000 against the owners of the bark Melmerby, recently wrecked at Roy's island, Little Harbor, with the loss of seventeen men. Four men clung to the wreck all night, and were rescued next day by E. P. McLean, W. Williams, J. McGlashen and Dan F. Rose. These men now bring suit against the Melmerby's owners for their services.

Capt. Allen's Denial.

FALL RIVER, Mass., Nov. 5.—Capt. J. I. Allen, of the ill fated schooner Cornelius Hargraves, has informed his relatives here that he should remain in Philadelphia till Wednesday, or so long as there is any prospect of raising the vessel. He denied the charges of cowardice preferred against him, and says he will set the matter right later. Capt. Allen, who is a resident of this city, has many friends here who believe him incapable of leaving a sailor to drown, as Mate Walker accuses him of doing.

The Lie Was Passed.

RICHMOND, Va., Nov. 5.—A. B. Guigon and A. J. Phillips were arrested today charged with contemplating a breach of the peace by fighting a duel or otherwise. Both men are members of the city council. At a meeting of that body this morning a violent dispute arose between them and the dispute was resumed when the men left the council chamber. The lie was passed, and their friends fearing a meeting had them arrested.

Dr. Gale on Diseases of the Kidney's.

Dr. Gale observes in his treaties on disease that the great use of wine in France is supposed to have abated the prevalence of the gravel.

In some parts of this country where Speer's Port Grape Wine is principally used, not only the gout, but the gravel is scarcely known. Dr. La Pota relates an extraordinary instances of the effects of Speer's Port Wine on gout the cure of Dr. Daveran, who was attacked with it at the age of twenty-five, and had it severely till he was upwards of fifty, with chalk stones in the joints of his hands and feet, but who, for four years preceeding the time when his case had been given to Dr. La Pota to lay before the public had by advice used Speer's Port Grape Wine, and had no return of the gout afterwards—*London Post.*

The Only One.

Again it affords us much pleasure to be able to record the fact that the Pittsburg Exposition opened its doors promptly as advertised. The many things to be seen are worthy of much of our space, but we will dwell only on one exhibit, the only one of its kind at the great show. Well may we say it is worthy of comment. We refer with pride to the display of Mr Max Klein, the wholesale liquor merchant. There you will find a complete distillery in full operation. His Silver Age Rye stands on a pyramid high enough to overlook all other displays; the bbs, and cases show at once the extent of his trades, conveying the impression that he ships to all parts of the country. His Pennsylvania Rye Whiskies, his imported and domestic wines, brandies and cordials are prominent features. No other liquor house in the country would dare to compete with him in making a display, and no other house in his line can or will sell goods as pure and at such reasonable prices. You can leave orders at his stand or apply to him direct for his complete catalogue and price list. Such a house should receive the custom of all who wish fair treatment and to Max Klein 82, Federal St., Allegheny, Pa., we can recommend you.

—Kitty Rhoades made her last appearance for the present in the opera house on Saturday night when Tom Sawyer was rendered. The opera house was packed and those present enjoyed the "bad boy" hugely. Miss Rhoades is a charming actress and certainly knows well the art of make-up. The company have signed for a return date at no very distant time.

THE PEOPLE ALARMED.

Russia's Capital City in Danger of Serious Inundation.

JEWISH STUDENTS DAZED.

An Edict That Will Force Them to Fly the Country—Spain Will Not Help the Pope Against Italy—Rome Against the Irish Campaign.

ST. PETERSBURG, Nov. 5.—This city is again suffering from floods caused by storms and winds which pile up the waters of the gulf and river and force them upon the city. The recurrence of this condition of affairs has greatly alarmed the people, and leads many to believe that the situation of the city is growing more perilous and that there is danger of complete submersion at some time of unusually heavy storms and high water.

The Jewish students in Southern Russia who embraced Christianity in order to be permitted to pursue their studies at the University of Odessa, have been thrown into consternation by the decree of the czar's ministers that Jewish converts shall be on the same footing as to education as Jews who retain their own religion. The converts dare not apply for readmission to the Hebrew faith, as they would thereupon be persecuted as apostates. Their only hope is in flight from Russia.

Murder at a Wedding.

GLASGOW, Nov. 5.—Lorenzo Mare Antonio last evening attended uninvited a feast given to celebrate an Italian wedding. His intrusion was resented, and he was forcibly ejected from the premises. Later in the evening Antonio returned and engaging in a quarrel with the bridegroom, plunged a stiletto into the latter's side, killing him instantly. The bride swooned, and before the murderer was overpowered another guest was severely wounded. The police have arrested Antonio.

Won't Help the Pope.

MADRID, Nov. 5.—The queen regent of Spain has replied, through the premier, to the petition of Catholic bishops for her interference in behalf of the pope, Her majesty, while professing deep devotion to his holiness and the church, replies that the Spanish government cannot justly interfere in the affairs of the kingdom of Italy.

Bitten by a Mad Dog.

DOVER, Nov. 5.—While a Bible class was in session here on Sunday a mad dog dashed into the room, causing a panic among the scholars. Before the animal could be secured he had bitten a number of the children. The cases of eight of the victims are pronounced hopeless.

The Pope Opposes It.

LONDON, Nov. 5.—It is reported in Rome that the pope has sent a message to the American episcopacy directing that bishops and pastors shall speak out openly against the Irish plan of campaign wherever aid is solicited for that movement.

An Anarchist Plot.

LYONS, Nov. 5.—An anarchist movement of extensive ramifications has been discovered here. The police have already arrested five persons supposed to be connected with the plot, and the arrest of others is expected to speedily follow.

A Spy Hanged.

BERLIN, Nov. 5.—A dispatch to The Cologne Gazette from St. Petersburg says that Lieut. Schmidt, who was tried on the charges of betraying plans of Cronstadt to a foreign power, has been found guilty and hanged.

A Queen's Play for Irving.

VIENNA, Nov. 5.—The Neue Freie Presse states that Mr. Henry Irving has accepted a drama written by the queen of Roumania. It is entitled "Meister Manolly," and is to be produced at the Lyceum theatre, London.

Another Dock Strike.

LONDON, Nov. 5.—At the Royal Victoria and Albert docks 800 of the men there employed refused to accept the decision of the leaders and went on strike. At all the other docks work is proceeding as usual.

Ninety Thousand Rifles Destroyed.

BERLIN, Nov. 5.—The barracks and arms depot at Lyck were burned yesterday. A large amount of ammunition and 90,000 rifles were destroyed.

Bernois Dead.

BERNE, Nov. 5.—Gen. Bernois, Swiss leader in the revolution of 1848, is dead.

President Garrett Stricken Down.

NEW YORK, Nov. 5.—A special to The Press from Baltimore says: While Robert Garrett, the ex-president of the Baltimore and Ohio, was at the Maryland club yesterday afternoon, calling on an old acquaintance, he was suddenly taken with a fainting spell, due to heart disease, and sank to the ground unconscious. He was taken to his residence near by, where restoratives were applied, which brought him back to consciousness. His friends are very much alarmed at his condition.

Suing for Damages on His Deathbed.

BLOOMINGTON, Ill., Nov. 5.—Last Friday Nathaniel Perry, a farmer living near this city, was mortally injured by a Big Four passenger train at a road crossing, and both his horses were killed and his buggy wrecked. Yesterday he brought suit against the company for $4,000 damages. His ante-mortem statement will be taken at once.

The Crew Saved.

SAN FRANCISCO, Nov. 5.—The schooner American Boy, lumber laden, from Gray's Harbor, went ashore on the Farallones yesterday during a fog. The crew took to the boats and were picked up last night by a tug about five miles from shore. The vessel will be a total wreck.

His Body Found in a Mill Pond.

WAUSAU, Wis., Nov. 5.—The body of George E. Ferrald, a prominent business man, who has been missing for ten days, was found in a mill pond here. It is generally thought that business troubles drove him to suicide.

A Little Bit of a Tot.

WABASH, Ind., Nov. 5.—There was born to the wife of Frank Stone, near Wabash, a baby weighing exactly 1¼ pounds. The infant, a girl, is perfectly formed in every respect and is but 6 inches in length.

DR. B. J. KENDALL CO.:

Sirs:—Last Summer I cured a Curb upon my horse with your celebrated Kendall's Spavin Cure and it was the best job I ever saw done. I have a dozen empty bottles, having used it with perfect success, curing every thing I tried it on. My neighbor had a horse with a very bad spavin that made him lame. He asked me how to cure it. I recommended Kendall's Spavin Cure. He cured the Spavin in just three weeks.

Yours respectfully, WOLCOTT WITTER.

COLUMBUS, Ohio, April 4, '90.

DR. B. J. KENDALL CO.:

Dear Sirs:—I have been selling more of Kendall's Spavin Cure and Flint's Condition Powders than ever before. One man said to me, it was the best Powder I ever kept and the best he ever used.

Respectfully, OTTO L. HOFFMAN.

CHITTENANGO, N. Y., May 19, '90.

DR. B. J. KENDALL CO.,

Dear Sirs:—I have used several bottles of your Kendall's Spavin Cure with perfect success, on a valuable and blooded mare that was quite lame with a Bone Spavin. The mare is now entirely free from lameness and shows no bunch on the joint.

Respectfully, F. H. HUTCHINS.

KENDALL'S SPAVIN CURE.

MONROE, La., May 8, '90.

DR. B. J. KENDALL CO.,

Gents:—I think it my duty to render you my thanks for your far famed Kendall's Spavin Cure. I had a four year old filly which I prized very highly. She had a very severe swollen leg. I tried about eight different kinds of medicines which did no good. I purchased a bottle of your Kendall's Spavin Cure which cured her in four days.

I remain yours, MARION DOWDEN.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL CO., Enosburgh Falls, Vermont.

BLOOD UPON HIS SHOES.

And Its Discovery Points the Way to Another Murder Mystery.

A GORY TELLTALE TRAIL.

A Man Who Stepped Into What He Thought a Mud Puddle Retraced His Steps and Found It to Be a Pool of Blood—A Ghastly Trail.

PLAINFIELD, N. J., Nov. 5.—The discovery of a trail of human blood leading from a lonely clump of trees in the outskirts of Rahway to the edge of a dock jutting out into the Rahway river has caused as profound a sensation and mystery as that aroused by the discovery of the murder of four years ago.

George Ball, a workingman, went out for a walk on Sunday evening and was horrified on returning home to find clots of blood clinging to his fingers after removing his shoes. He remembered having stepped into what he thought was a mud puddle, and the idea that this must have been a pool of blood kept him awake nearly all night. Early on Monday morning he retraced his steps and found that during the walk he had indeed struck a gory trail. The place where he had stepped into the pool of blood was an unfrequented spot in Bowman's nursery.

A Fearful Crimson Trail.

The weeds around the horrid red spot, with its smooth, coagulated surface marred by his own footprints, were crushed and broken, as though the body of a man had suddenly fallen there under a blow, and had weltered in a crimson flow. Leading away from the spot was a trail of more broken weeds and more blood, and then a trail of blood alone, as though the mysterious body had suddenly been lifted and carried along, dripping blood drops on the way.

Ball followed the crimson stains along a zigzag course, which seemed to indicate that the bearer had staggered under the burden. Here and there were little pools, where a rest seemed to have been taken. The trail led along a lonely way to an old unused dock on the river front, where near the edge was another pool; then more drops on the bank of the stream.

Positive of Murder.

Ball reported his discovery to a state detective, who promptly had a physician analyze some of the blood. The physician said it was undoubtedly human blood, and advised that the river be dragged for the corpse. Monday night the detective and Ball searched with grappling irons the river bed in the neighborhood of the dock front, but could find nothing.

The matter was reported to the local authorities Tuesday, and the river will be dragged for the body that is supposed to be hidden in its depths. The detective says he possesses clews tending to prove his theory that a murder has been committed. He thinks that the body was lowered from the dock into a rowboat and conveyed down the river to Staten Island sound.

Another Murder Mystery.

TROY, N. Y., Nov. 5.—Patrick Welch, a member of the police force, was arrested here early Tuesday morning on the charge of murdering his wife Bridget last night. The case is shrouded in mystery. Welch denies the charge and says when he went to his home Monday evening after a day's duty he found his wife insensible on the floor. She was terribly bruised. He declares that he does not know how she received her injuries. The couple have not lived happily, and Welch has been very jealous of his wife. He was committed to await the result of the coroner's inquest.

A Destructive Fire in Amsterdam.

AMSTERDAM, N. Y., Nov. 5.—The most destructive fire Amsterdam has experienced since 1884 occurred Tuesday morning. The fire was discovered at 3:30 o'clock in a barn adjoining E. T. Leavenworth's coal sheds. The flames spread rapidly, and soon enveloped the sheds, which contained 800 tons of coal. The flames then jumped to the large piles of lumber in a yard adjacent to the sheds. The lumber was badly damaged. The coal sheds were entirely destroyed, and the huge coal banks are still burning. The fire department is trying to extinguish the fire in the coal, but it is feared it will all be burned to cinders.

Burned to a Crisp.

MASON CITY, Ia., Nov. 5.—While Miss Mary Purcell was building a fire in a cooking stove the skirt of her dress caught fire, and in a moment her clothes were all ablaze. She rushed out of doors, but when help reached her her clothing was all burned off and she was lying prostrate on the ground, her body completely charred.

BRIEF MENTION.

A letter from Sister Rose Gertrude states that she has not abandoned her intention of devoting her life to the lepers.

An English syndicate is negotiating for manufacturing property worth $6,000,000 situated near Toronto, Canada.

Bud McCoy, leader of the notorious McCoy gang, was murdered in Logan county, W. Va.

Gen. Castelnau, who was aid-de-camp of Emperor Napoleon III, is dead.

Secretary of the Interior Noble has written an open letter to Governor Hill in which he censures him for his attack upon the census bureau and the insinuations that the result in New York was effected by partisan methods for partisan purposes.

The peasants are fleeing from the vicinity of Mount Etna in dread of a destructive eruption. The mountain has been rumbling for some weeks and the central cone throws out showers of ashes. Shocks of earthquake have also been felt.

A Mother's Fearful Fall.

SOUTH BETHLEHEM, Pa., Nov. 5.—Mrs. Arsene F. Julian, while coming down stairs with a lighted coal lamp and carrying her 1-year-old child last night stumbled and fell to the bottom. The lamp exploded and mother and child were horribly burned. Neither can live.

On Their Winter Cruise.

NEWPORT, R. I., Nov. 5.—The United States training ships Jamestown and Portsmouth sailed Tuesday for Norfolk, Va., to prepare for the annual winter cruise to the West Indies. They took a large detachment of apprentice boys from the training station here.

EVERY ONE FINDS A NEW USE.

Scrofula

Is the most ancient and most general of all diseases. Scarcely a family is entirely free from it, while thousands everywhere are its suffering slaves. Hood's Sarsaparilla has had remarkable success in curing every form of scrofula. The most severe and painful running sores, swellings in the neck or goitre, humor in the eyes, causing partial or total blindness, yield to the powerful effects of this medicine. It thoroughly removes every trace of impurity from the blood and builds up the weakened system.

"My little daughter's life was saved, as we believe, by Hood's Sarsaparilla. Before she was six months old she had 7 running scrofula sores. One physician advised the amputation of one of her fingers, to which we refused assent. When we began giving her Hood's Sarsaparilla, a marked improvement was noticed and by a continued use of it her recovery was complete. And she is now, being seven years old, strong and healthy." B. C. JONES, Alna, Lincoln County, Me.

PURIFY THE BLOOD WITH

The mortality in large cities is due to the fact that bad food, bad air, and bad habits have made *bad blood*. From the largest bone down to the smallest hair, the whole body is fed, supplied with new material, kept alive and healthy by the flow of blood. In fact it is the most important part of the system.

Indeed, it is claimed there can be no disease, save an occasional brain trouble, when the blood is pure and flowing free.

Brown's Sarsaparilla purifies and enriches the blood and invigorates the entire system.

Cross Creek, Washington Co., Pa.

Alfred C. Stephenson, writes, "I think Brown's Sarsaparilla can not be equalled as a blood purifier.

Anna B. Crook of Stoneboro, Mercer Co., Pa., says, "I have used Brown's Sarsaparilla, and find it a great blood purifier.

DUUTCH COURTSHIP.

How Young Men in Holland Express Their Preference for the Girls.

N. Y. Press.

In certain parts of Holland, when a young man thinks he has found his affinity, it is customary for him to ask for a match to light his cigar at the door of the beloved one's house. This little subterfuge is intended to arouse the parents of the girl to the fact that something is in the wind,

If a second call with a similar object is made soon after, no doubt is left of the young man's intentions, and the parents proceed to investigate the young man's antecedents, with a view of ascertaining his eligibility as a member of the family. When he calls the third time, always for a match to light his cigar, they are prepared to give him an answer.

If his suit is regarded with favor, he is politely requested to step inside for the first time and is served with a light. If he is not accepted, he is refused a light, and the door is shut in his face without further ceremony. But, having prepared for this contingency, the downcast suitor will in all probability light his weed with a match from his own box, and walk away, musing on the transitory nature of all earthly things When the accepted suitor is invited to enter the house,he,as a matter of course, informs the parents which of their daughters has captivated his fancy.

When this is settled the young man steps forward and they join hands. While the engagement is by no means a settled fact even at this important stage, yet it is stated as a truth that when, on occasion of the young man's third visit, his inamorata has offered him a second cigar, which he had smoked in their house,the engagement has never been cancelled.

TO CONSUMPTIVES.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease 'Consumption," is anxious to make known to his fellow sufferers the means of cure To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung Maladies. He hopes all sufferers will try his Remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing and may prove a blessing, will please address REV. EDWARD A. WILTON, Williamsburg, Kings County, New York.

Dr. Talmage's First Cigar.

The time had come in our boyhood which we thought demanded of us a capacity to smoke. The old people of the household could abide neither the sight nor the smell of the Virginia weed. When ministers came there, not by positive injunction,but by a sort of instinct as to what would be safest, hey whiffed their pipe on the back tep. If the house could not stand sanctified smoke, you may know how little chance there was for adolescent cigar-puffing.

By some rare good fortune which put in our hands three cents, we found access to a tobacco store. As the lid of the long, narrow, fragrant box opened and for the first time we owned a cigar' our feelings of elation, manliness, superiority and anticipation can scarcely be imagined, save by those who have had the same sensation. Our first ride on horseback, though we fell off before we got to the barn, and our first pair of new boots (real squeakers), we had thought could never be surpassed in interest; but when we put the cigar to our lips and stuck the lucifer match to the end of the weed, and commenced to pull with an energy that brought every facial muscle to its utmost tension our satisfaction with this world was so great our temptation was never to want to leave it,

The cigar did not burn well; it required an amount of suction that tasked our determination to the utmost You see that our worldly means had limited us to a quality that cost only three cents. But we had been taught that nothing great was accomplished without effort, and so we puffed away. Indeed, we had heard our older brothers in their Latin lessons say, *Omnia vincet labor*; which translated means, if you want to make anything go, you must scratch for it.

With these sentiments, we passed down the village street and out toward our country home. Our head did not seem exactly right, and the street began to rock from side to side, so that it was uncertain to us which side of the street we were on. So we crossed over, but found ourselves on the same side that we were on before we crossed over. Indeed, we imagined that we were on both sides at the same time, and several fast teams driving between. We met another boy who asked us why we looked so pale, and we told him we did not look pale, but that he was pale himself. We sat down under the bridge and began to reflect on the prospect of early decease, and on the uncertainty of all earthly expectations. We had determined to smoke the cigar all up and thus get the worth of our money, but were obliged to throw three-fourths of it away, yet knew just where we threw it in case we felt better the next day.

Getting home, the old people were frightened, and demanded that we state what kept us so late, and what was the matter with us. Not feeling that we were called upon to go into particulars and not wishing to increase our parents' apprehension that we were going to turn out badly, we summed up the case with the statement that we felt miserable at the pit of the stomach. We had mustard plasters administered, and careful watching for some hours, when we fell asleep and forgot our disappointment and humiliation in being obliged to throw away three fourths of our cigar.—T. De Witt Talmage, in *Ladies' Home Journal.*

How to Preserve the Voice.

How to preserve the voice and keep it presumably fresh is almost like asking how to keep from getting old. Some people grow faster than others because they are imprudent and do not take care of themselves. The voice should not be imposed upon, and instead of growing husky in a decade it should remain comparatively fresh for two and even four decades. Patti's voice is a fine example of one that has never been imposed upon, never been forced to sing six nights in a week and once at a matinee. A grand opera singer should sing only twice a week, perhaps three times if his or her physical condition warrants it. Singers should have plenty of sleep, good appetites, nothing to make them nervous, and, if possible, a more or less phlegmatic disposition. The latter they rarely possess to any great degree. Overwork is death to a voice. A singer will not notice at first the inroad that gradually undermines a voice and leaves it an echo of its former sweetness.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E Hurd of Groton, S D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles: it has cured me and thank God I am now a well and hearty woman." Trial bottle free at W. C. Keplinger & Co's. drug store, regular size 50c and $1.00.

A dressmaker of some note says she gets her best ideas from characters on the stage.

An Irishman's Family.

An Irish landlord, who is now on a visit to this country, relates that one of his tenants came to him before his departure and asked to have his cottage enlarged.

"Sure," he said, "it do be too small already, an' me family do be needin' more room."

"But, Francis," replied the landlord, "you've not been married very long. How old is your oldest?"

"Faith, they're eight years."

"They?"

"Yis. Two av thim. Twins."

"Ah! And what's the age of the next?"

"They're six, yer honor."

"They?"

"Yis, twins."

"Good Lord! Have you any more?'

"Yis. The next two be three years."

"Boy or girl?"

"Both, sor. Twins."

"Francis, this won't do."

"So I thought, sor; but there were only one in the last lot. He's a year ould."

"Well," sighed the landlord, "I'm afraid I shall have to enlarge your cottage."

—Friday night was Hallow E'en but, had it not been for the little bit of corn which sprinkled the pavements this morning one would not have known it. There was less mischief done that night than any Hallow E'en for a long time. The removal of a few board ditch crossings and the throwing of corn constituted the major part of all that was done.

"I am so troubled about my husband," said Mrs. Badman, seeking sympathy from the pastor's wife. "He goes from bad to worse. He is an infidel and an atheist, and now he says he is an agnostic and doesn't know anything and doesn't believe anything and doesn't think anything."

"My dear sister," replied the pastor's wife, "you don't know what trouble is. My husband thinks he knows how to cook."

"Hello! Tom. Glad to see you, old fellow! It's almost ten years since we were married. Sit down: let's have an experience meeting. How's the wife?"

"Oh! she's so-so, same as usual,—always wanting something I can't afford."

"Well, we all want something more than we've got. Don't you?"

"Yes: but I guess 'want will be my master.' I started to keep down expenses; and now Lil says I'm 'mean,' and she's tired of saving and never having anything to show for it. I saw your wife down street, and she looked as happy as a queen!"

"I think she is; and we are economical, too,—have to be. My wife can make a little go further than anyone I ever knew, yet she's always surprising me with some dainty contrivance that adds to the comfort and beauty of our little home, and she's always 'merry as a lark.' When I ask how she manages it, she always laughs and says: 'Oh! that's my secret!' But I think I've discovered her 'secret.' When we married, we both knew we should have to be very careful, but she made one condition: she would have her Magazine. And she was right! I wouldn't do without it myself for double the subscription price. We read it together, from the title-page to the last word: the stories keep our hearts young; the synopsis of important events and scientific matters keeps me posted so that I can talk understandingly of what is going on: my wife is always trying some new idea from the household department; she makes all her dresses and those for the children, and she gets all her patterns for nothing, with the Magazine; and we saved Joe when he was so sick with the croup, by doing just as directed in the Sanitarian Department. But I can't tell you half!"

"What wonderful Magazine is it?"

"Demorest's Family Magazine, and—"

"What! Why that's what Lil wanted so bad, and I told her it was an extravagance."

"Well, my friend, that's where you made a grand mistake, and one you'd better rectify as soon as you can. I'll take your 'sub.' right here, on my wife's account: she's bound to have a china tea-set in time for our tin wedding next month. My gold watch was the premium I got for getting up a club. Here's a copy, with the new Premium List for clubs,—the biggest thing out! If you don't see in it what you want, you've only to write to the publisher and tell him what you want, whether it is a tack-hammer or a new carriage, and he will make special terms for you, either for a club, or for part cash. Better subscribe right off and surprise Mrs. Tom: Only $2.00 a year—will save fifty times that in six months. Or send 10 cents direct to the publisher, W. Jennings Demorest, 15 East 14th Street, New York, for a specimen copy containing the Premium List."

—The sentiment against the licensed saloon is growing daily. No apples, no cider, no vinegar, no private visits to a neighbor's cellar, no lost jugs, no jugs left alone in the woods, not so much fun but perhaps better morals.

—There are some pretty mean men in this world. The other day a man of one political faith wrote to a gentleman of the opposite party asking for $5 to pay his expenses home to vote, when the said man was so near home that one half dollar would pay his way there and back.

—If there be any truth in the Indian belief that cold weather never sets in in good earnest until the streams are full to overflowing, so that Jack Frost will have no excuse for delaying his appearance until December, even though the Indian summer has not yet reported.

—A little advice clipped: My friend, you will find in life that those who are jealous of your prosperity are like snarling curs, continually saying mean things of you; they are too lazy to acquire fame or fortune. They are jealous. In many instances those who slander you are in debt to you, if not in the money sense, they are under obligation to you for some kindness shown to them. Treat those people as they deserve.

—Yes, give your son a trade. Far better this than to bring him up in pampered idleness. It will make him self-reliant, independent. The children of Prince Albert of Prussia are being taught to use their hands as well as their brains. Their father is as well versed in the mysteries of bookbinding as the Emperor Frederick was in carpentering, and the two sons of Prince Albert have learned enough masonry to be able to build a small pavilion under proper superintendence. The younger brother is to be a joiner. Prince Albert takes more interest in this part of his son's education than any other. Give him employment—and make him happy.

FOSTER—HAUPT.

A State College Gentleman Weds a Bellefonte Young Lady.

A very pretty wedding occurred in the Methodist Episcopal church in this place on Wednesday evening at 6 o'clock, it being the occasion of the marriage of Miss Olive Bertha Haupt, daughter of Mr. and Mrs. Simeon Haupt, of Logan street, to Lieut. Phil. D. Foster, son of Mr. John Foster, of State College. About two hundred or more guests were present to witness the ceremony.

Messrs. H. B. McLean and Charles Foster, of State College, and Messrs. Ed. B. Rankin and Charles T. Noll, of Bellefonte, were the ushers. There was neither bridesmaid nor groomsman. Rev. W. A. Houck performed the ceremony, after which the happy couple were driven to the home of the bride's parents where refreshments were served. They departed on the 8.49 train for a brief tour through eastern cities. The presents were numerous and valuable as well as ornamental and useful. One thing received was a large piano lamp from the State College foot ball team, of which Mr. Foster was a member. May the happy couple live long and prosper.

The Ladies' Home Journal.

Campanini's first and exceedingly readable article on "How to Train the Voice," in which the famous tenor gives many a good hint to singers, leads a bewilderingly number of good thing in the November *Ladies' Home Journal*. 'Liberties of Our Daughters' is a very good article by Mrs. Admiral Dahlgren, while another on 'Can Women keep a secret?' by Junius Henri Browne, is as keen as it is entertaining. Will Carleton has a beautifully illustrated poem; Susan Coolidge tells a bright Thanksgiving story; Annie Sheldon Coombs begins a beautiful Italian romance; Foster Coombs gives a most gossippy and eminently readable description of "Jewel Caskets of Fashionable Women"; Why I Never Married," gives the reasons why women decline proposals of marriage, and is a thoroughly enjoyable article; Dr. Talmage describes the Thanksgiving Day of his youth; Mrs. Margaret Bottome's Department for the King's Daughters" is apparently a complete success; 'Side Talks with Girls" is bright reading for every girl; Mrs. Lyman Abbott has her Department; Mrs. Rorer, Anna Alexander Cameron and several other authorities on cooking give Thanksgiving menus, and altogether the November *Journal* is a perfect model magazine for women. It could not be improved upon And for ten cents a single copy, or one dollar a year, it becomes the cheapest, as well as the very best of all domestic periodicals. Published at 433—435 Arch street, Philadelphia, Pa.

Literary Note.

Herbert Ward, in the preface to his "Five Years with the Congo Cannibals," tells the story of the Rear-guard of the Stanley Expedition for the relief of Emma Pacha. The trials of those left behind by Mr. Stanley when he pushed forward, the fate of Major Barttelot and Mr. Jameson, and Mr. Ward's own part in the transactions of that trying period form an important and interesting chapter in the history of Mr. Stanley's great enterprise. The unfortunate controversy now raging between Mr. Stanley and the representatives of Major Barttelot renders Mr. Ward's revelations as to that matter especially interesting and valuable. Mr. Ward's book contains many facts hitherto unknown A flood of light is thrown upon the condition and habits of the millions inhabiting the Congo basin. The illustrations are truthful representations of the scenery, habitations and natives, made from original drawings by Mr. Ward while in Africa, This is the most important publication on the subject of late African exploration, and the condition of the native races, that is likely to appear for many years.

The "Press'" Figures.

On Thursday the Philadelphia *Press* published an estimate of the probable result from all over the State as received from the county chairmen of each party and also as given by special correspondents. The Republican county chairmen claim it for Delamater by a majority of 32,370. The democrats claim a majority for Pattison of 21,592, while the *Press* correspondents give it to Delamater by a majority of 14,185. From the above it is apparent that somebody has been doing some wild calculating Time will tell who.

Snow Shoe Items.

Mrs. M. C. Nolan, the pleasant and amiable hostess of the popular hotel, the Mountain House, spent Saturday in Bellefonte.

Our genial friend, Peter McCauley, was in Snow Shoe a few days ago shaking hands with his many friends.

Mr. Daniel Garman, one of the solid citizens of Bellefonte, accompanied by his brother, spent a short time in our little city of the "Shoe".

Miss Jennie Weaver, of Philadelphia, who has for some time been the guest of Mrs. Nolan, took her departure last week.

Mr. W. F. Pile, until recently one of our Snow Shoe boys, was in town last Tuesday.

A Pension Order.

Says a Washington special of October 23: The Commissioner of Pensions, with the approval of Assistant Secretary Bussey, has issued the following:

Order No: 164. In regard to fixing rates of pensions under the act of June 27, 1890.

That all claimants under the Act of June 271890', showing a mental or physical disability or disabilities of a permanent character, not the result of their own vicious habits, and which incapaciate them from the performance of manual labor, rendering them unable to earn a support in such a degree as would be rated under former laws at or above $6 and less than $12, shall be rated the same as like disabilities of service origin, and that all rates showing a pensionable disability which if of service origin, would be rated at or above $12 per month shall be rated at $12 per month."

An Attempt to Burglarize.

On Wednesday night, about 3 o'clock, two men attempted to break into the Bellefonte postoffice. As it fortunately happened, however, they were discovered by policeman Foulk, who was on the opposite side of the street, and they decamped. Foulk fired three shots but brought nothing down. An examination of the door this morning shows that they just commenced to bore a hole in the door near where the catch is, evidently to saw off the latch.

"Ours."

A widower with a number of small children married a widow who was similarly blessed. In time the newly married couple added to the number. Hearing a voice in the yard one day the father went out to see what was the matter. 'Well, what was it?' asked his wife, as he returned out of breath. 'Your children and my children were pounding our children,' was the reply.

Rumored Railroad Extensions.

It is rumored that the Beech Creek railroad will be extended shortly from Beech Creek to Bellefonte. There is also a rumor that the railroad in Nittany Valley is to be extended eastward from Bellefonte as far as Snydertown, a short distance west of Lamar.

The above was found in the Lock Haven *Express*, and we hope it may every word of it be true. It would be such a good thing for Bellefonte.

The Lotus Glee Club Concert Company.

The Lotus Glee Club has been before the public ten years: It was organized in 1881, by Mr. Nat. M. Brigham, a Harvard student, and three fellow members of the Boston Apollo Club. The present membership with which it enters upon its eleventh season has been maintained since 1886. During this period the quartette has succeeded not only in obtaining a national reputation, but has gone abroad and secured an overwhelming success in the world's great metropolis, where for the past three years, it has been the reigning sensation of the London summer season, and has obtained the warmest praise from prominent musicians and press critics In this country it has long been conceeded that the Lotus Glee Club stands in the front rank of male quartette singers, and is unrivalled in the rendition of music requiring delicacy of expression and fine effects of shading: their execution is uniform and technically perfect, their enunciation distinct, and long practice has given them an *ensemble* which is absolutely beyond criticism.

The Club will returned in September from London, where they have been singing the past three months. One of their concerts was in the Royal Albert Hall, where they had the honor of appearing with Mde. Adelina Patti.

Miss Minnie Marshall, the well known reader, has been re-engaged and will aypear at each entertainment. She has been with the club the past three seasons and has given unbounded satisfaction. She is a lady of unusal talent, and her recitals, while adding the necessary variety, are fully up to the high standard of the musical selections.

This musical organization will appear in the Court House, Bellefonte, under the auspices of the W. C. T. U., on Tuesday, November 11th, 1890. It will be the second entertainment of the Star Course.

The Change in Woman's Dress.

The elaborately-dressed woman, on the street especially, is destined to be a rarity. Flashy styles will be given over to the marked women who seek for attention so far as the criticisms of their own sex and the sneers of the men are concerned. That the time is ripe for a material change in the fashions is conceded by all women of taste and intelligence. Styles have run to the extreme, until only a little distance remained to the point of the exceedingly ridiculous. The strain on the purse has been severely felt. Changes, and of a radical nature, became so frequent that even the wealthiest found difficulty in keeping pace with them. The reaction which has set in is both timely and healthy. Women on every hand are welcoming the dawn of the simple in dress, while man will have extended to him the honor he has always esteemed the greatest could be conferred upon him—to walk the street with a woman in neat, but simple attire.—*Home Journal.*

Properly Put.

"Many people think newspaper men are persistent dunners, says an exchange. By the way of comparison, let us suppose that a farmer raises 1,000 bushels of wheat a year, and sells it out to one thousand persons in all parts of the county, a great portion of them saying: 'I will hand you the dollar in a short time.' The farmer don't want to be small and says, 'All right' Soon the 1,000 bushels are gone, but he has nothing to show for it and he then realizes that he has frittered away his whole crop, and that its value to him is due in a thousand driblets; consequently he is seriously injured in his business because his debtors, each owing him a dollar, treat it as a small matter and think it would not help him much. Continuing this kind of business year in and year out, as the publisher does, how long would he stand it? A moment's thought would convince any man that a publisher has cause for persistent dunning"

Sour Grapes.

The *Centre Reporter* this week turns face backwards and calls sour grapes on its own candidates and party managers because they did not give the Centre Hall brother what he terms his share of the campaign printing. This is the way brother Kurtz puts it:

"The newspaper work for the Democratic party is not done in Bellefonte alone; nor is all the Democratic voting done in Bellefonte, nor does any one, or two, or three leaders in Bellefonte own the Democratic party, hence we protest.'

That's right, brother, protest; kick like the very old nick and, if the party leaders don't ante up some of that boodle, why you just show them what's what by voting for Delamater and the entire Republican ticket and then—well then you won't get left.

Two old British sailors were talking over their shore experience. One had been to a Cathedral and had heard some very fine music, and was descanting particularly upon an anthem which gave him much pleasure. His shipmate listened for awhile, and then said:

"I say, Bill, what's a hanthem?"

"What!" replied Bill, "do you mean to say you don't know what a hanthem is?"

"Not me."

"Well, then, I'll tell yer. If I was to tell yer, 'Ere' Bill, give me that 'andspike, that wouldn't be a hanthem; but was I to say, Bill, Bill, giv, giv, giv me, give me that, Bill, giv me, giv me that 'and, 'andspike, 'and, 'andspike, spike, spike, spike, ahem, ahem, ahem! why that would be a hanthem."

"Kindergarden."

The Kindergarden company of comedy and burlesque artists, with musical specialties, singing and dancing, gave one of their amusing entertainments a the Opera House in this city to a large audience, the house being well filled, both down stairs and up. "Kindergarden" is a curious slinging together of very funny things that keep the audience in a roar of laughter from the beginning to the close. Act 1st, showing the "Widow's Home," and act 2nd which gives the audience a view of the doings in the Kindergarden school, were side-splitting performances and fairly made the spectators hold their sides. The more quiet among them te-he'd, the less restrained ha-ha-ha'd, while those who didn't care how loud they laughed gave full vent to their haw, haw-haws? The last act, "The Masquerade," showed the company in their good clothes, but still funny. The singing was excellent and chorded most harmoniously, while the dancing was extremely graceful and pleasing. The orchestra was a really fine one. The play, comedy, burlesque or whatever it may be called was a satire on Kindergarden schools and was gotten up by R. G. Morris, of the N. Y. *Herald*. The company is composed of good people apparently and the young ladies were bright, sparkling and good-looking. Miss Lutie Miller as "Ivey Magee" seemed to assume the leading female parts, but her assistants Misses Isabel Tucker, Mabel Havens, Ollie Tremaine and Jessie Bertam were all smart and attractive. As a comedian Lafe, C. Woodson, whose name last night was Philander Montmorenci St. Clair Duchesne, is inimitable, while Messrs. Clayte E. White, Ben. T. Dillon, Eddie Percy and R. J. Kridler, the latter as "Widow Magee" could not be excelled certainly. We can say for the Kindergarden that it will give even more than satisfaction wherever it goes.—L. H. *Democrat.*

Jewels of the Astors.

The Astor family possess some wonderful jewels, particularly diamonds. The late Mrs. John Jacob Astor used to wear a tiara that few of the crowned heads of Europe could match. Mrs. William Astor wears a beautiful *riviere* of diamonds, three rows graduated. She also possesses a famous diamond necklace of six strings, set in such a manner that no gold is visible, and having the appearance of being strung together. Mr. Astor is constantly having it altered, and increasing its brilliancy and value by the addition of larger diamonds in the place of small ones. There are some fine emeralds in the family, but no member seems to care much about display, and, except on rare occasions, these jewels are not worn. One of Inspector Brynes' detectives, who stood in full evening dress in a brilliant ball room on the crest of Murray Hill one night last winter, where Mrs. Astor and all the wealth of New York were present, said: "There is nearly five million dollars' worth of jewelry and precious stones in this room. Valuable gems glittered and glistened in the gas light like rain drops in the sun.—Foster Coates, in *Ladies' Home Jonrnal.*

Bear in Bellefonte.

It is not often that the wild and huggly beast, the "bar," is to be found in Bellefonte but Soturday about seven o'clock there was one to be found right in the most important part of the town—up in the Diamond. It did not show the least fear of the crowd that surged around, neither did it show any desire to fight, and, stranger than all else, it did not show the least desire to escape. Reason: It was a dead bear and was being retailed out at the curb market to any person who wanted bear meat. The animal was killed at Hayes' Run, near Beech Creek a day or so ago by William Mann. This is the second or third bear that gentleman has killed this fall.

—Miss Maize Graham, whose taste and skill in millinery has never been questioned seems to have surpassed all former efforts, as will be seen by those who visit her little emporium just above Miss McBrides old stand. Although her stock is not large yet it comprises all the very latest styles in hats and bonnets. Miss Maize is quite an artist in her line and her deft fingers manufacture some of the most exquisite little bonnets which fairly delight the fastidious ladies of our town. We are glad to see Miss Graham meeting with so much success, as her large line of costumes surely denote.

"Have you any excuse?" asked the Judge of a man who had been summoned on the jury.

"Yes, sir; my wife is sick."

"Not a legal excuse. We want a good jury for this case, a case of train-robbing. Any other excuse?"

"Yes, sir; I have rheumatism."

"Not a legal excuse."

"I used to live in Missouri."

"You did? Well, then, get out of here. We don't want you."

A sea-serpent, 103 feet long, was seen to coil itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr. Pierce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the lungs, which is really scrofulous disease. If this wonderful medicine does not do all we recommend, when taken as directed, we will cheerfully and promptly return all money paid for it. Can any offer be more generous or fair? No other medicine possesses sufficient power over that fatal malady—Consumption, to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alterative, or blood-cleanser, known to medical science, but also possesses superior nutritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For all cases of Bronchial, Throat and Lung Diseases, accompanied with lingering coughs, it is absolutely unequaled as a remedy. For Weak Lungs, Spitting of Blood, and kindred affections, it surpasses all other medicines.

$500 REWARD

is offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Catarrh in the Head which they cannot cure. By its mild, soothing, and healing properties, Dr. Sage's Remedy cures the worst cases, no matter how bad, or of how long standing. Fifty cents, by druggists.

—On Thursday night at his home at Hecla Furnace, Squire George Johnstonbaugh, father of Prof. Johnstonbaugh, of the Bellefonte High School, breathed his last. Deceased was 81 years of age and his death was the result of general debility. The funeral will occur tomorrow, meet at the house at Hecla at 9 o'clock a. m., where services will be held after which the remains will be taken to Boalsburg for interment.

—About six-fifths of the patrons of the Telephone forgot that this was the day that the number system of calls went into effect and when they called the central office they asked for Mr. So and So, and they got for answer—"go back and get your number." It is very simple and easy and why can't the people mind.

Fun, Drama and Music.

The opera house on Monday night was packed—many people standing—to witness the "Kindergarden" and the large audience certainly got lots of fun. The play is one of the funniest ever witnessed in Bellefonte. Lale Woodson, as the Professor, Miss Lute Miller, as Ivy Magee, R. J. Kridler, as Widow Magee and Clayt White, as the Grinder, certainly performed their parts to perfection while there was not one amateur in the entire company. The singing and dancing was fine and the music by the orchestra especially good.

"FAUST,"

One of the finest operatic burlesques of the age is the original satire on Goethe's immortal poem of "Faust" which appears at the opera house on next Thursday night, November 6. The Reeves' English Operatic Burlesque Company produce the satire and they are the recipients of the most flattering press notices everywhere.

A SOCIAL SESSION.

Manager Garman has succeeded in securing the celebrated "A Social Session" company for an appearance in this city on Monday, November 10. This company enjoys a favorable reputation throughout the entire country, having made three distinct transcontinental tours. The play is a very funny one, on the order of the Hoyt comedies, but as a laugh provoker it is said to discount them all. The company carry as a supplementary feature the famous Black Hussar Band, which also enjoys a national reputation and is conceeded to be the finest musical organization on the road in America. It is a fine attraction and will be liberally patronized.

Curious Work Done by a Clock.

Darius L. Goff, at Patucket, R. I., is one of the proprietors of the great braid works, but has a fancy for mechanical and electrical experiments. He has in his front hall a tall, old-fashioned clock, an heirloom, which, strange to say, never runs down. It stands near the front door, and is conndcted with it by a rod with gearing attachments. Whenever the door is opened or closed the winding arrangements are given a turn, so that the acts of entering or leaving the house keeps the clock constantly wound But this is not all. By means of electrical appliances operated by the clock in its movements, the gas jet in the hall is raised at dusk and lowered at bedtime an early rising bell is rung in the servants' hall, a later rising bell is rung to summon the family from their repose, and still an hour later the clock rings the breakfast bell. Whenever it strikes the hour soft musical cathedral chimes are struck simultaneously in the chambers, and for a moment the house is filled with melody. Had Mr. Goff lived and conjured in witchcraft days he would certainly have been hanged.

Wilbur F. Harris, arrived home from Washington D. C., this morning and will stay at home for a few days.

California Tours via the Pennsylvania Railroad.

The Pennsylvania Railroad Company, through its personally-conducted tourist system, presents four winter and spring pleasure tours to California. The special trains conveying the parties will, in each case, start from New York, and the dates of starting are as follows: Tour No. 1, February 7th, 1891; No. 2, March 3d; No. 3, March 26th, and No. 4, April 14th. The special train returning the first party will leave San Francisco for New York on March 11th; the 2d April 3d; the 3d April 24th; and the fourth, May 14th. Each tour will present a different route from the others as well as a different route going from that returning. Tour No. 1 will go South via Washington, Atlanta and New Orleans, where a break of the journey will be made during the Mardi Gras festivities, thence via the Southern Pacific's Sunset Route and San Antonio to San Francisco returning via Salt Lake City, Colorado Springs, Denver and Chicago. Tour No. 2 will go west via St. Louis, Kansas City and the Santa Fe route to San Francisco, returning via Chicago. Tour No. 3 will go West to San Francisco by same route as No. 2, returning via San Francisco by same route as No. 2, returning via Salt Lake City, Colorado Springs, Denver, Council Bluffs, and Chicago. Tour No 4 will go West via Chicago, Council Bluffs Denver, Colorado Springs, and Salt Lake City to San Francisco, returning via Portland, Tacoma, Helena, St. Paul, and Chicago. On all the tours breaks of the journey will occur at certain attractive points on the line both going and returning.

The parties will travel by a special train of Pullman Vestibule Drawing-room, Sleeping, Dining, Smoking and Observation cars, an exact counterpart of the celebrated Pennsylvania Limited in every particular. The Train will be equipped with ladies' maids, a stenographer and type-writer, a barber-shop and bath-rooms for both ladies and gentlemen. I will present a through trip to San Francisco, the like of which has never been enjoyed by any regular traveler.

The excursion rates, which include railway fare, a double berth, meals *en route*, hotel accomodations where a stop-over necessitates, in both directions, side trips to San Diego, Riverside, Passadena Monterey, Santa Barbara, and San Jose, are $275,00 for the first, second, and third tours, and $300.00 for the fourth. For other side trips through California special low rates will be made the local railroads. Each party will be conducted by a Tourist Agent and Chaperon, both experienced in their profession.

Itineraries presenting the full detailed information may be secured by addressing Geo. W. Boyd, Asst. General Passenger Agent, Philadelphia, Pa.

The Star Course.

The ladies of the W. C. T. U. have now about completed arrangements for their Star Course for the season of 1890-91 and the entertainments they have engaged to bring here are of the very best On November 11th the Lotus Glee Club will appear in the Court House. On December 8 Dr. James Hedley will deliver one of his most popular lectures. No engagement has yet been made for January but there will be later on. On February 9th that prince of good orators and Bellefonte's favorite lecturer, Russell H. Conwell, will appear and lecture on "The jolly earthquake." On March 10 the Nashville students will be here and close the Star Course with a musical entertainment that will be enjoyed by all. Season tickets, at $2 for the entire course, have been printed and are now on sale. The price is very low and every man in Bellefonte should buy one and thus encourage entertainments of that kind, and in addition he would then be able to hear some good and instructive lecturers.

Personal Penciilings.

Hon. James Milliken arrived home on Thursday morning.

Mr. J. Barton, of Unionville, was in Bellefonte on Monday.

Miss Rachael Humes, of this place is visiting Mrs. C. E. Gilmore in Tyrone.

Miss Mamie and Henrietta Butts departed on Monday morning for Philadelphia.

Rev. W. L. Hayden, after a good siege of electioneering, arrived home on Friday evening.

We thus far omitted to mention that Walter W. Bayard is spending a few days at home, having returned on Saturday night.

Mr. John I. Rankin, of Washington, D. C., arrived in Bellefonte on Friday morning and will remain in town for a few days.

Judge A. O. Furst, of Bellefonte, and Judge John W. Simonton, of Harrisburg, were guests at the Continental Hotel yesterday. Major W. F. Reynolds, the Bellefonte banker, and James Milliken whose interest in Republican concerns sometimes wakens up Centre county with dynamic oratory, accompanied Judge Furst.—*Philadelphia Times.*

School Report.

The following is the report of the Scotia Mines school, Patton township, Centre county, Pa., for the month ending Oct. 24th, 1890: Number of pupils on roll—male, 30, female, 37, total 67. Average attendance during month—male, 23, female, 29, total 52. Average per cent. of attendance—male 83, female 81, total 82. The pupils in attendance every day during month were Samuel Saxion, Lyda Johnstonbaugh, Laura Powley, Alice Malone, Annie Rudy, Cora Rudy. Those missing one day were Cora Williams, George Williams, Judson Williams, Huey Malone, James Malone, John Sellers, James Sellers, George Sigel, Nellie Gummo, Roxie Dick, Laura Dick, Alice Reeder, Jennie Sellers, Elsie Hassinger. The attendance at this school would have been considerably better had it not been on account of sickness in the town. J. W. BLAIR, Teacher.

Millheim Murmurings.

Miss Effie Harter, daughter of Mr. Israel Harter, of Canton, Ohio, is at present visiting her many friends and relatives in this place and vicinity. Miss Harter is a very bright, amiable and charming young lady.

Mr. J. H. B. Hartman has had put down a very neat and substantial pavement in front of his residence.

A son of Mr. J. C. Smith was thrown from a horse on Friday, October 24, and had a shoulder dislocated. Dr. Miller rendered the necessary medical attention and the boy is improving fast.

Mrs. M. Weaver has improved her property by a new picket fence erected on the west side.

Miss Katie Musser, of Aaronsburg, visited friends in this place recently.

Dr. Charles Musser, son of Mr. M. Musser, of Aaronsburg, and who is attending Jefferson Medical College, in Philadelphia, was at home for a few days this week.

Amusement Notes.

'Faust at the Opera House next Thursday will mark an important event in the operatic season in the opera house, it being the date of the appearance of the Reeves English Operatic Burlesque Company in their popular rendition of the satire on 'Faust.' The Syracuse *Standard* of October 7, commenting on the Reeves company, says: "The audience at the opera house, last night, despite the rain, was the largest of the season. The performance, Reeves' burlesque on Faust, was received with every token of pleasure. However, it was not so much the working out of the plot, as the special features introduced that caught the public favor. Especially pleasing were *Siebel*—B. H. Seever—a guileless student who is supposed to be in love with *Marguerite*, and Dick Turner, as *Brander* a ward politician. Miss Marie Dressler, as *Martha*, a giddy young girl of 50 summers, fairly captivated the house. Miss Maud Wilmot, who impersonated *Marguerite*, is a pert and pleasing body whose songs were charmingly rendered. W. J. Cogswell makes a capital *Mephistopheles*. The other members of the company are equal to their parts."

Reserved seats at Parrish's drug store.

Whitney's was filled last evening with an audience at almost went wild over the many ludicrous situations that are to be seen in this most laughable of musical farce-comedies. Without exception, it is as good a company as was ever seen here, every member being an artist of more than ordinary merit. Laughable situations seem to be the trade mark, and they follow each other in rapid succession. The auditors laugh because they cannot help it, and it is kept up until the finale. A great many good things might be said of "A Social Session." Let it suffice by saying it is worthy the liberal patronage it everywhere receives.—Detroit (Mich.) *Free Press, May* 20, 1890.—In the opera house Monday night.

At the concert given in the Royal Albert Hall on Saturday afternoon for Mme. Patti by the Messrs. Harrison, it was satisfactory to find that, though traces still remain of the great singers recent indisposition in a slight diminution of actual vocal power, she was yet able to give very great pleasure to an immense concourse of admirers numbering over 14,000 people. Her operatic selections were a little less familiar than usual; they were the "Legende de La fille du Paria,' from Lakme, and Donizetti's "O luce di quest 'anima." After the latter she gave "Comin' through the rye" as an encore, and after the ballot set down for her, "On the banks of Allen Water," sang "Home, sweet home." The singing of a duet from Ambroise Thomas's Hamlet by Mr. and Mrs. Thomas Henschel was one of the most welcome features in the program, as was that of the Lotus Glee Club in an able interpretation of Goldbeck's well harmonized "Three Fishers," and also in a charming boat-song which they gave as an encore.—*Daily Telegraph.*—In the Court House Tuesday night.

—How many of our readers know that every watch is a compass? Very few, we venture to say, and yet such is a fact. To illustrate is very easy. Point the hour hand to the sun, and the south is exactly half way between the hour of day and the figure XII, on the watch. For instance, suppose it 4 o'clock. Point the hand indicating 4 to the sun and II on the watch is exactly south Suppose it is 8 o'clock, point the hand indicating 8 to the sun and the figure X on the watch is due south. If you don't believe the above, test it once with another compass and find out for yourself.
